**The Cherry Orchard** Anton Pavlovich Chekhov, Julius West, 2008-01-01 The Cherry Orchard was the last play written by Anton Chekhov and is widely regarded as one of his greatest dramatic accomplishments It is the story of an aristocratic Russian woman and her family who return to their estate a cherry orchard to oversee the auction of the estate in order to pay the mortgage The rise of the middle class and the decline of the aristocracy that was prevalent at the end of the 20th century in Russia and ultimately led to the Socialistic Revolution are excellently portrayed in Chekhov's The Cherry Orchard

**The Cherry Orchard** Anton Chekhov, 2016-04-20 The Cherry Orchard is the last play by Russian playwright Anton Chekhov It opened at the Moscow Art Theatre on 17 January 1904 in a production directed by Constantin Stanislavski Although Chekhov intended it as a comedy and it does contain some elements of farce Stanislavski insisted on directing the play as a tragedy Since this initial production directors have had to contend with the dual nature of the play The play concerns an aristocratic Russian woman and her family as they return to their family estate which includes a large and well known cherry orchard just before it is auctioned to pay the mortgage While presented with options to save the estate the family essentially does nothing and the play ends with the sale of the estate to the son of a former serf the family leaves to the sound of the cherry orchard being cut down The story presents themes of cultural futility both the futile attempts of the aristocracy to maintain its status and of the bourgeoisie to find meaning in its newfound materialism In reflecting the socio economic forces at work in Russia at the turn of the 20th century including the rise of the middle class after the abolition of serfdom in the mid 19th century and the sinking of the aristocracy the play reflects forces at work around the globe in that period
