The Child Structure And Dynamics Of The Nascent Personality:

The Child Erich Neumann, 2018-03-29 In the closing chapters of *The Origins and History of Consciousness* Erich Neumann spoke of the importance of demonstrating how the basic laws of the psychic history of mankind are recapitulated in the ontogenetic life history of the individual in our culture Implicit in his words was the promise that an exploration of the detailed psychology of the various stages of life would follow *The Child* an examination of the structure and dynamics of the earliest developments of ego and individuality is the first of these explorations In it we progress from the primal relationship of child and mother through to the emergence of the ego Self constellation via the child's relationship to its own body its Self the thou and being in the world We move from the matriarchate to the patriarchate from participation mystique to the standpoint of the Self around which the ego revolves as around the sun

The Body's Recollection

of Being David Michael Levin, 2002-01-04 This is a unique study containing the work of Merleau Ponty and Heidegger and using the techniques of phenomenology against the prevailing nihilism of our culture It expands our understanding of the human potential for spiritual self realization by interpreting it as the developing of a bodily felt awareness informing our gestures and movements The author argues that a psychological focus on our experience of well being and pathology as embodied beings contributes significantly to a historically relevant critique of ideology It also provides an essential touchstone in experience for a fruitful individual and collective response to the danger of nihilism Dr Levin draws on Merleau Ponty's phenomenology to clarify Heidegger's analytic of human beings through an interpretation that focuses on our experience of being embodied He reconstructs in modern terms the wisdom implicit in western and semitic forms of religion and philosophy considering the work of Freud Jung Foucault and Nietzsche as well as that of American educational philosophers including Dewey In particular he draws on the psychology of Freud and Jung to clarify our historical experience of gesture and movement and to bring to light its potential in the fulfilment of Selfhood Throughout the book the pathologies of the ego and its journey into Selfhood are considered in relation to the conditions of technology and the powers of nihilism

Trauma en de ziel Donald Kalsched, 2024-06-26 Donald Kalsched schetst in Trauma en de ziel een levendig beeld van het proces dat ieder mens kan doormaken wanneer er een diep trauma is opgelopen Hij begint bij de oorsprong van dat trauma waarbij sprake kan zijn geweest van fysieke of emotionele verwaarlozing of mishandeling en maakt de verdedigingsmechanismen bewust die het onschuldige kind of oorspronkelijke zelf moesten beschermen Deze mechanismen kunnen in iemands latere volwassen leven tot dysfunctionele situaties leiden Kalsched laat met inzichten uit het werk van Jung zien dat het helingsproces van trauma via afweer naar herstel een spiritueel proces is waarbij de ziel afdaalt naar de hel waaruit ze later gered wordt Op meeslepende wijze vertelt hij de verhalen van gewone patiënten hoe zij in de intieme setting van zijn praktijk een glimp opvangen van de menselijke ziel en de diepte van de geest en hoe de ervaring van een niet alledaagse werkelijkheid tot diepgaande transformatie kan leiden Een verscheidenheid aan thema's komt aan bod terwijl hoofdstuk voor hoofdstuk een unieke geïntegreerde psycho-spirituele benadering van trauma wordt opgebouwd Aandacht voor impliciete processen in het relationele veld evenals ontdekkingen in de lichaamsgerichte neurowetenschappen maken de behandeling van trauma effectiever Met dit standaardwerk ontrafelt en herstelt Kalsched het mysterie van psychoanalytisch werk

Emotional Growth and Learning Paul Greenhalgh, 2002-11 A timely contribution to the debate this book clarifies the processes involved in social interactions and relationships whilst serving as a practical and theoretical resource for teachers and other professionals
