The Child That Never Played:

Rukhmabai Sudhir Chandra, 2024-02-12 The extraordinary story of a child bride who took on the patriarchy and emerged one of India's pioneering women doctors From overcoming stupendous trials to inscribing her name in the annals of women's liberation Rukhmabai's journey is marked by a quiet unyielding strength Denied formal education and wedded off at eleven years of age to a nineteen year old wastrel named Dadaji Bhikaji Rukhmabai refused to live with him and was dragged into a vexatious legal suit for the restitution of conjugal rights The suit set off a huge social and political debate of far reaching importance Coverage of her historic defiance in both British and Indian media established her as a salient figure of global feminism and along with the backing of notable reformers soon paved the way for her move to the United Kingdom to study medicine Studying at the London School of Medicine for Women and qualifying to be a doctor in 1894 she returned to India a celebrity but chose an unglamorous life of service through medical practice She spent the next many years until her retirement in 1929 leading hospitals in Surat and Rajkot through two pandemics performing daring surgeries awakening women across classes and inspiring them to openly seek medical treatment An outcome of research spanning decades Sudhir Chandra's intelligent empathetic biography shines brilliant new light on this extraordinary but little known life of a rebel doctor who dared to challenge the norms of her time and left behind a formidable legacy The radical view she proposed of woman's freedom is yet to be fully realized Imagine That: Open the Door to a Child's Never Ending Imagination J.E.

Foughner, 2020-09-30 This adventure will take you from my humble beginnings to what I believe to be God's greatest gift a young child born with the unrestrained pursuit for knowledge and truth The journey begins with our mutual discovery of the ability to create original and wondrous fairy tale stories without the benefit of a typical storybook or any other reference except our own vision and resourceful imagination In this book you will be introduced to new characters like Captain Cloud Cloud Leader Sparkle Little Puff and the rest of the IMAGINE THAT gang These characters will light the spark of imagination in you and your child so you can create your own adventures just like my daughter and I did Along the way I will explain the processes that will help you open up the infinite possibilities of your own stories Believe me when I tell you there is nothing more precious and special than hearing a child create their own worlds of fantastic and magical characters Enjoy

Education Outside the Classroom Great Britain. Parliament. House of Commons. Education and Skills Committee, 2005 The Committee's report examines the wide range of outdoor learning experiences from lessons held within school grounds to residential expeditions abroad and considers the place of outdoor learning in the curriculum from foundation stage to higher education Issues discussed include the value of outdoor learning and the decline of opportunities for educational opportunities outside the classroom the barriers that deter schools from teaching outside the classroom including perceptions of risks in school trips the resources and curriculum time available for such trips availability and costs involved policy options for the Department for Education and Skills to help encourage schools improve and expand provision for

outdoor learning and funding implications The Committees recommendations include that the DfES should issue a Manifesto for Outdoor Learning which gives all students the right to outdoor learning and which should attract a similar funding level to the music manifesto around 30 million in order to deliver real change Intelligent Computing Kohei Arai,2021-07-05 This book is a comprehensive collection of chapters focusing on the core areas of computing and their further applications in the real world Each chapter is a paper presented at the Computing Conference 2021 held on 15 16 July 2021 Computing 2021 attracted a total of 638 submissions which underwent a double blind peer review process Of those 638 submissions 235 submissions have been selected to be included in this book The goal of this conference is to give a platform to researchers with fundamental contributions and to be a premier venue for academic and industry practitioners to share new ideas and development experiences We hope that readers find this volume interesting and valuable as it provides the state of the art intelligent methods and techniques for solving real world problems We also expect that the conference and its publications is a trigger for further related research and technology improvements in this important subject **Modular Cognitive-behavioral Therapy for Childhood Anxiety Disorders** Bruce F.
