## **The Politics Of Economic Power In Southern Africa:**

**The Politics of Economic Power in Southern Africa** Ronald T. Libby, 2014-07-14 This book questions the notion that South Africa can exert effective political leverage over its economically dependent neighbors while itself remaining free of regional influences Originally published in 1987 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**The Political Economy Of South Africa** Ben Fine, 2018-02-12 Democratization in South Africa has been accompanied by continuing and even deepening economic inequalities Rather than proposing a blueprint for a more equitable economic system this book presents the results and implications of wide ranging research on the history and current dynamics of the South African economy over the past fifty years The authors analyze a range of strategic economic trajectories linking these to the shifting balance of economic and political power and they set the parameters within which the economic and political debates are conducted The acclaim with which democratization in South Africa has been greeted has been tempered by the recognition that there are at the same time continuing and even deepening economic inequalities This is more disturbing given the extreme economic disparity experienced by much of the black population the retreat from commitments to public ownership enshrined in the Freedom Charter the unambiguous safeguarding of private capital and the obstacles placed in the way of progressive economic policies by business interests and the entrenched apartheid era bureaucracy Rather than proposing a blueprint for a more equitable economic system this book presents the results and implications of detailed and wide ranging research on both the history and current dynamics of the South African economy from the Second World War to the present The authors analyze a range of strategic economic trajectories linking these to the shifting balance of economic and political power in South Africa But their approach is not prescriptive instead they set the parameters within which the economic and political debates are conducted They also discuss the theoretical arguments involved in the propositions that they and others have put forward The books value is enhanced by the comprehensiveness of the data presented and each chapter is self contained so that particular topics can be studied separately

*The Political Economy of Global Warming* Del Weston, 2014-04-11 Humanity is facing an unprecedented global catastrophe as a result of global warming This book examines the reasons why international agencies together with national governments are seemingly unable to provide real and binding solutions to the problems The reasons presented relate to the existing dominant global economic structure of capitalism as well as the fact that global warming is too often seen as an isolated problem rather than one of a suite of exceptional converging and accelerating crises arising from the global capitalist political economy This book adopts a political economy framework to

address these issues It accepts the science of global warming but challenges the predominant politics and economics of global warming To illustrate the key issues involved the book draws on South Africa building on Samir Amin's thesis that the country represents a microcosm of the global political economy By taking a political economy approach the book provides a clear explanation of the deep and pervasive problem of the denial which fails to acknowledge global warming as a systemic rather than a market problem The book should be of interest to students and scholars researching climate change environmental politics environmental and ecological economics development studies and political economics

**Contemporary South Africa and the Political Economy of Regional Development** Methembe Mdlalose, Isaac Khambule, Nene Ernest Khalema, 2025-02-21 South Africa's struggle in balancing its domestic needs while playing a dynamic developmental role in the African region and global context exposes a complex web of relations shaped by its geostrategic location on the continent and the world and the staggering legacies of colonialism and apartheid As such understanding the complexities of the global economy and of South Africa's place in it is of great importance This book builds upon an existing body of literature which has demonstrated that while the post apartheid South African state has recast its nation building goals with advances having been made notably in the area of a stellar post apartheid constitution policy directives and democratic political integration economic integration and policy implementation presents a projection of captured interests where big business concerns are entrenched in the post apartheid state's apparent neo liberal turn The main focus of the book is to contextualise issues relating to three main trends in global discourses on development which are significant for South Africa and indeed for the study of the political economy of regional development in the country from the prism of South Africa as a global capitalist state These trends include the impact of globalisation regionalisation and the marginalisation of South Africa and indeed the African continent in the global economy thus unpacking the possible role that South Africa might play in regional development This volume will be a valuable resource to academics researchers and students in the fields of regional studies economics and political theory as well as policymakers planners and local economic development practitioners

**The Political Economy of South Africa Revisited: Tracking and Debating the Minerals-Energy and Financial Complex** Benjamin Fine, 2025-12-11 South Africa's political economy is commonly understood as a Minerals Energy and Financial Complex MEFC But the MEC has been misunderstood Specifying the MEFC as a system of accumulation and drawing upon extensive research and engaging in critical debates the originator of the term traces the MEFC from apartheid origins through the ANC's failure to adopt coherent and coordinated policies ultimately leading to degeneration into state capture and beyond Emphasis is placed upon the interaction between South African specificities and globalisation neoliberalisation and financialisation anchoring economic and social reproduction in five lows across investment productivity wages employment and social provision South Africa Newell Maynard Stultz, 1989 Monthly Bibliography United Nations Library (Geneva, Switzerland), 1997 Social Science Quarterly, 1988 Includes section Book reviews

**Civil Society and Democratic Development in Africa** Julius Edo Nyang'oro, 1999      **Cyclopaedia of Political Science, Political Economy, and of the Political History of the United States** John Joseph Lalor, 1884      *An Analysis of Political and Economic Restructuring in South Africa, 1973-1992* Grant Saff, 1993      *Policy Speech* Kwazulu (South Africa). Chief Minister, 1988      **Cyclopædia of Political Science, Political Economy, and of the Political History of the United States** John Joseph Lalor, 1882      *Towards Economic and Political Justice in South Africa* David Thomas, 1980  
Conference report comprising the keynote statements and transcript of discussions on multi race relations in South Africa R focuses on racial policy issues incl Trends and directions for the future considers priorities regarding democracy social change avoidance of conflict and racial discrimination etc References Conference held in johannesburg 1979 jul

**Cyclopædia of Political Science, Political Economy, and of the Political History of the United States, by the Best American and European Writers** John Joseph Lalor, 1899      **Worlds of Difference**, 1990      South West Africa Cases. (Ethiopia V. South Africa; Liberia V. South Africa) 1966 International Court of Justice, 1967      **South Africa** Renier Koegelenberg, 1996      Indicator South Africa, 1992      The Geopolitics of Regional Power Sören Scholvin, 2016-03-09 In the last two decades various states from the Global South have emerged as important players in international relations Most popular among them is China Brazil India and South Africa have also taken essential roles in global and regional politics Compared to traditional great powers they can be labelled regional great powers or regional powers because their influence is with the exception of China concentrated on their neighbourhood The impact of regions meaning the impact of geography on the economics and politics of regional powers is surprisingly understudied This book analyses how geographical conditions influence the regional economics and politics of South Africa allowing the author to delineate its region of influence
