30 Great Books That Made History Jaume Aurell, 2025-11-26 Today many readers could easily list thirty classic authors or thirty classic works of art literature music philosophy or science But would they be able to name thirty classic works of history In spite of history's outsized influence in the world of ideas the books that made and remade the history we know so well are often forgotten In this panoramic book distinguished historian Jaume Aurell sets out to introduce readers to a new canon of historical writing Taking a global approach he places the work of Herodotus Thucydides Gibbon Michelet and Braudel alongside masterpieces from a myriad of periods and civilizations from Sima Qian Anna Komnene al Masudi and Fukuzawa Yukichi to Edmundo O Gorman C L R James and Natalie Zemon Davis At the same time Aurell argues that we should not see these books as a definitive canon instead any canon should be seen as a list in progress to be contested and debated anew with each generation It is only by being exposed to these diverse and deeply significant works that we can fully perceive the shape of the discipline and carve out a new appreciation for the art of history writing
