[The Death of Media and the Fight to Save Democracy](#) Danny Schechter, 2005 In The Death of Media Emmy Award winning journalist Danny Schechter offers a blistering polemic about the unprecedented interest in media reform from protests by Pope John

Paul II to local radio DJs that signals the end of media as we know it But Schechter doesn't tell the story you might expect that of the blogosphere replacing daily newspapers Rather he chronicles new players including Google a diverse world of independent outlets and media reform movement while showing how they have carefully organized around issues in traditional media Convinced that we can't fix America without fixing the media The Death of Mediashows why the fight to change our media is bigger than any political fight yet

You should definitely read this book What really struck me in reading *Beyond These Walls* was that Tony Platt had very seriously and carefully considered the contributions of social movements feminist queer disability and labor Angela Davis *Beyond These Walls* is an ambitious and far ranging exploration that tracks the legacy of crime and imprisonment in the United States from the historical roots of the American criminal justice system to our modern state of over incarceration and offers a bold vision for a new future Author Tony Platt a recognized authority in the field of criminal justice challenges the way we think about how and why millions of people are tracked arrested incarcerated catalogued and regulated in the United States *Beyond These Walls* traces the disturbing history of punishment and social control revealing how the criminal justice system attempts to enforce and justify inequalities associated with class race gender and sexuality Prisons and police departments are central to this process but other institutions from immigration and welfare to educational and public health agencies are equally complicit Platt argues that international and national politics shape perceptions of danger and determine the policies of local criminal justice agencies while private policing and global corporations are deeply and undemocratically involved in the business of homeland security Finally *Beyond These Walls* demonstrates why efforts to reform criminal justice agencies have often expanded rather than contracted the net of social control Drawing upon a long tradition of popular resistance Platt concludes with a strategic vision of what it will take to achieve justice for all in this era of authoritarian disorder
