## Be My Human:

**The Human Origins** Valentin Matcas, 2016-04-20 There is more to the human origins development intelligence and civilization than the epic debate Creationism versus Evolution simply because there is more to the human condition than what authorities and ideologies want you to believe Therefore when you study the human origins you have to search beyond the moment when the first humans had detached from the firmament or previous species since there are other significant events in humanity's lifespan and achievement defining its specific timeline While you have to study everything otherwise you risk understanding these significant events only from simplistic empirical or ideological perspectives ending up learning what you already know while following the crowd throughout unending debates Since you want the accurate truth because you already know all theories beliefs speculations and debates regarding the human origins And this is why when you study the human origins you expect to understand everything about the origins of life the nature and origins of this world the nature of the human higher self and intelligence the origins and debut of the human consciousness and human intelligent reasoning along with all details related to the Creator of this entire world of Life and of humanity Additionally it is relevant to know how all these affect you personally and how they affect your family your genetic line and your nation how your family and genetic line originate where and how it happened under what circumstances and with what status and privileges for you for your family for your nation and for the humankind And this is exactly what we cover throughout this book in all details and from all perspectives This book studies the human origins along with the origins of life human intelligence human species human development human society human current civilization along with various past civilizations of Earth integrating humans their origins and their original and current conditions in an elaborate comprehensive model
