The Central American Refugees Elizabeth G. Ferris, 1987 **Central American Refugees** United States. General Accounting Office, 1984 Central American Refugees United States. Congress. House. Committee on Post Office and Civil Service. Subcommittee on Census and Population, 1985 **Media, Central American Refugees, and the U.S. Border Crisis** Robin Andersen, Adrian Bergmann, 2019-06-13 This book identifies the history conventions and uses of security discourses and argues that such language and media frames distort information and mislead the public misidentify the focus of concern and omit narratives able to recognize the causes and solutions to humanitarian crises What has been identified as a crisis at the border is better understood as an on going crisis of violence building over decades that has forced migrants from their homes in the countries of the Northern Triangle Authors Robin Andersen and Adrian Bergmann look back to U S military policies in the region and connect this legacy to the cross border development of transnational gangs government corruption and on going violence that often targets environmental and legal defenders They argue that the discourses of demonization and securitization only help perpetuate brutality in both Central America and the United States especially in the desert borderlands of the southwest They offer ways in which stories of migrants can be reframed within the language of justice empathy and humanitarianism A compelling examination of language media and politics this book is both highly contemporary and widely applicable perfect for students and scholars of global media political communications and their many intersections Central American Migration to the United States United States. Congress. Senate. Committee on the Judiciary. U.S. Central Americans Karina Oliva Alvarado, Alicia Ivonne Estrada, Ester E. Hernández, 2017-03-14 This interdisciplinary edited volume of thirteen essays presents a broad look at the Central American experience in the United States with a focus on Southern California By examining oral histories art poetry and community formation the contributors fill a void in the scholarship on the multiple histories experiences and forms of resistance of Central American groups in the United States The contributors provide new research on the 1 5 generation and beyond and how the transnational dynamics manifest in California home to one of the largest U S Central American populations

Central Americans in Mexico and the United States Sergio Aguayo, Patricia Weiss Fagen, 1988 This study compares the Mexican and US responses to the massive influx of Central Americans over the past decade It underscores the pervasive confusion and disagreement in both countries over the appropriate criteria and jurisdictions for decision making The authors state that approximately 87 to 88 percent of all Central Americans who have left their respective countries are in either Mexico or the United States They show that recognition of a refugee or group of refugees is not always based on an evaluation of the causes of flight but that foreign policy considerations and domestic political factors are equally important in determining the reaction of the receiving country An argument is made that although the United States and Mexico have different cultures and political systems their responses to the Central American outflow have been similar partly humanitarian partly restrictionist However the restrictionist views have been modified because of divisions within the public and private sectors A special section within the analysis of Central Americans in Mexico treats the problem of the recognition of Guatemalans as refugees and other Central Americans not recognized as refugees Coping with first asylum entries is briefly treated in the analysis of Central Americans in the United States as well as certain tensions between the UNHCR and the United States over jurisdiction and policies In the conclusions the authors compare the US and Mexican responses maintaining that neither government has addressed the question of its abortive capacity seriously and make several recommendations for improving the situation

Northwest, April 29-May 13, 1984, 1984 **Sanctuary** Gary MacEóin, 1985 This compilation of 20 essays is the fruit of a two day Sanctuary symposium sponsored by the Tucson Ecumenical Council's Task Force for Central America In addition to the principal presentations of that Symposium the book contains a history of the Sanctuary Movement an appendix on how to establish a sanctuary and an analysis by Dr Elie Wiesel on what it means to be a refugee The essays by scholars refugees and sanctuary workers reflect the struggle to be loyal to visions of faith with committed action that challenges the principalities and powers of our day The book is divided into six themes In the first there is Dr Wiesel's speech and a brief history of the Sanctuary Movement in the United States since 1979 involving Central American refugees and their struggles with the Immigration and Naturalization Service INS The emphasis is mostly on El Salvador Honduras Guatemala and the US involvement Part Two treats the theological and biblical perspectives on sanctuary from Calvinist Hebraic and other points of view The third section traces the historical perspective on sanctuary and Central America Part Four analyses the ethical legal and human rights perspectives on sanctuary Part Five includes three speeches by refugees themselves including one on being a minister and a refugee The last section deals with the specific challenge to the American conscience of the refugee question and the Sanctuary Movement **Refugees** John Rogge, 1987 **CIREFCA** Dennis Gallagher, 1990 **Central Americans in California** Nora Hamilton, Norma Stoltz Chinchilla, 1995 Central America's Forgotten History Aviva Chomsky, 2021-04-20 Restores the region's fraught history of repression and resistance to popular consciousness and connects the United States interventions and influence to the influx of refugees seeking asylum today At the center of the current immigration debate are migrants from Central America fleeing poverty corruption and violence in search of refuge in the United States In Central America's Forgotten History Aviva Chomsky answers the urgent question How did we get here Centering the centuries long intertwined histories of US expansion and Indigenous and Central American struggles against inequality and oppression Chomsky highlights the pernicious cycle of colonial and neocolonial development policies that promote cultures of violence and forgetting without any accountability or restorative reparations Focusing on the valiant struggles for social and economic justice in Guatemala Nicaragua El Salvador and Honduras Chomsky restores these vivid and gripping events to popular consciousness Tracing the roots of displacement and migration in Central America to the Spanish conquest and bringing us to the present day she concludes that the more immediate roots of migration from El Salvador Guatemala and Honduras lie in the wars and in the US interventions of the 1980s and the peace accords of the 1990s that set the stage for neoliberalism in Central America Chomsky also examines how and why histories and memories are suppressed and the impact of losing historical memory Only by erasing history can we claim that Central American countries created their own poverty and violence while the United States enjoyment and profit from their bananas coffee mining clothing and export of arms are simply unrelated curiosities Developing Solutions for Central American Refugee Problems Jonathan Moore, 1989
