Louise Dickinson Rich

The China Clipper:

The China Clipper, Pan American Airways and Popular Culture Larry Weirather,2006-11-13 The Pan American clipper ships of the 1930s and 1940s were technological marvels of their time The years before World War II found the United States faced with international challenges of an economic as well as a military nature Aided by government regulations and contracts the Pan Am clippers were for a time the only international craft to carry the U S flag Commercially they rivaled the comfort and popularity of passenger trains and luxurious cruise ships Militarily they were unmatched by anything the Germans Russians Italians or French could produce The only long range aircraft capable of carrying transoceanic payloads clippers became instantly valuable with the onset of the war Marketed as the ultimate in commercial or military airfare these flying boats became as much an American icon as the Pan Am logo itself From the movie screen to the bookshelf this volume examines the multitude of ways in which the values inherent in Pan American Airways clipper ships played out in popular culture The book discusses the strategies Pan Am used to represent the clipper as a paragon of U S interests values and beliefs Mirroring the moods of the times the clipper became a consistent American icon being associated with the Statue of Liberty and the American eagle The main focus of the work is the variety of ways in which this iconographic status manifested itself through toys movies pulp fiction comic books and music Clipper influence is also examined in other unlikely places such as the name of an available car color car models restaurant menus and lounge names An appendix explains different models of the clipper flying boats

Jackson,1980 **China Clipper** Robert Gandt,2010-10-01 When the China Clipper shattered aviation records on its maiden six day flight from California to the Orient in 1935 the flying boat became an instant celebrity This lively history by Robert Gandt traces the development of the great flying boats as both a triumph of technology and a stirring human drama He examines the political military and economic forces that drove its development and explains the aeronautical advances that made the aircraft possible To fully document the story he includes interviews with flying boat pioneers and a dynamic collection of photographs charts and cutaway illustrations [The China Clipper](#) Peter Guttmacher,1994 Traces the history of the China Clipper the luxury seaplane that flew the transpacific route for Pan American in the 1930s

The China Clippers Basil Lubbock,2015-02-15 This book is an effort to preserve the records of the most perfect type of sailing ship at the very height of its development and it has been written entirely for sailors and those who are interested in shipping I have put down as simply as possible the personal history of certain ships and that in the plain language of the sea without any attempt to explain technical or seafaring terms for the benefit of the landsman The material gathered together in this book has been culled from countless abstract log books as well as from information supplied to me not only by the men who sailed the ships but also by their owners designers and builders Indeed I have to thank so many people for their help that a page of print would not contain their names and I can only hope that this book may perhaps recall some pleasant

sea memories and thus in some slight way recompense them for their kindness and trouble Reprint of the original edition 1899 *China Clipper* Ronald Jackson, 2017-03-07 The true story of Pan American's flying boats and their role in the war in the Pacific based on over 6,900 previously undisclosed government and corporate documents *China Clipper* is a gripping and revealing story that sheds new light on the events leading up to World War II. *China Clipper* is filled with fact but reads like a spy novel. *China Clipper* breaks new ground and garnered stellar reviews. new theory on the mystery of the Hawaii Clipper. New York Times compelling even romantic San Francisco Chronicle this is exciting reading. San Diego Union good tale for spy aviation and WWII buffs. Nashville Banner In the 1930s the political stability of the U.S. was collapsing. The U.S. was dangerously vulnerable. Through a popular policy of isolationism and international treaty the U.S. had only the most rudimentary and feeble defenses for an inevitable war with Japan. Japan on the other hand was ruthlessly storming through Manchuria Korea and China slaughtering millions. The U.S. was stymied but Pan American Airways proposed commercial seaplane bases at Pearl Harbor Midway Wake Guam and Manila all attacked on December 7 and 8 1941 offered the perfect ruse to begin fortifying the Pacific in 1934. You'll discover how the government worked covertly with Pan American to build Pacific island defenses how Pan American became a monopoly and powerhouse airline. While *China Clipper* can be read as an exciting war story based on true events its major power lies in the unique recreation of people and events heretofore previously unknown. Tautly written filled with vivid characterizations *China Clipper* is a compelling and a frightening examination of the forces that eventually caused Pearl Harbor to explode and the world go to war. *China Clipper* also follows the day by day flight of American citizen and Chinese patriot Wah Sun Choy in July 1938 on the Hawaii Clipper bound for China. A successful New Jersey businessman Wah Sun Choy had raised over 3 million to help bolster China's war with Japan. But his purpose to deliver the money to the Chinese Nationalists clashed with the avowed aims of Japan. Between Guam and Manila the elegant flying boat completely disappeared. Why the 26 ton flying boat vanished and how is explored in depth for the first time in *China Clipper*.
