Gregg, 2017-11-19 Excerpt from The Power of Nonviolence Is nonviolent resistance intellectually and morally respectable or not If it is at all practical anywhere to What extent and why Is it applicable in the West or not It is difficult for one trained in modern Western modes of thought and action to understand this idea or to believe that its practice can be cogent Even Gandhi's explanations of it fail to carry weight with most of us His explanations come out of a background of thought About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

BOOK JACKET **The Force of Nonviolence** Judith Butler,2020-02-04 Judith Butler s new book shows how an ethic of nonviolence must be connected to a broader political struggle for social equality Further it argues that nonviolence is often misunderstood as a passive practice that emanates from a calm region of the soul or as an individualist ethical relation to existing forms of power But in fact nonviolence is an ethical position found in the midst of the political field An aggressive form of nonviolence accepts that hostility is part of our psychic constitution but values ambivalence as a way of checking the conversion of aggression into violence One contemporary challenge to a politics of nonviolence points out that there is a difference of opinion on what counts as violence and nonviolence The distinction between them can be mobilised in the service of ratifying the state s monopoly on violence Considering nonviolence as an ethical problem within a political philosophy requires a critique of individualism as well as an understanding of the psychosocial dimensions of violence Butler draws upon Foucault Fanon Freud and Benjamin to consider how the interdiction against violence fails to include lives regarded as ungrievable By considering how racial phantasms inform justifications of state and administrative violence Butler tracks how violence is often attributed to those who are most severely exposed to its lethal effects The struggle for nonviolence is found in movements for social transformation that reframe the grievability of lives in light of social equality and whose ethical claims follow from an insight into the interdependency of life as the basis of social and political equality
