## **The Power Of Thetis:**

**The Power of Thetis and Selected Essays** Laura M. Slatkin,2011 Slatkin's influential book explores the superficially minor role of Thetis in the Iliad showing how our awareness of alternative myths brings a far greater understanding of Thetis's place in the Epic's thematic structure. This edition also includes six additional essays which cover a broad range of topics in the study of the Greek Epic. **The Power of Thetis** Laura M. Slatkin,1991 We have long recognized in the Iliad the hallmarks of the oral traditional poet who chooses among alternative arrangements of formulaic elements. In *The Power of Thetis* Laura M. Slatkin makes us aware of another compositional resource just as crucial to our understanding of the meaning of Homeric epic. Slatkin shows how through the selection and combination of mythic motifs Homer interprets mythological traditions and locates his characters within them by allusion or oblique reference. The figure of Thetis, the mother of Achilles, provides an especially revealing example of the way in which such mythological resonance contributes a wider context and meaning to the epic's central themes. Slatkin teaches us to listen for what is unspoken as well as spoken in the poetry of Homer and thereby confronts us with the larger questions of the function of epic and its boundaries as a genre.

**The Power of Thetis** Laura M. Slatkin,1971 **The Staying Power of Thetis** Maciej Paprocki, Gary Patrick Vos, David John Wright,2023-04-27 In 1991 Laura Slatkin published *The Power of Thetis: Allusion and Interpretation in the Iliad* in which she argued that Homer knowingly situated the storyworld of the Iliad against the backdrop of an older world of mythos by which the events in the Iliad are explained and given traction. Slatkin's focus was on Achilles' mother Thetis, an ostensibly marginal and powerless goddess. Thetis nevertheless drives the plot of the Iliad, being allusively credited with the power to uphold or challenge the rule of Zeus. Now almost thirty years after Slatkin's publication, this timely volume re-examines depictions and receptions of this ambiguous goddess in works ranging from archaic Greek poetry to twenty-first-century cinema. Twenty authors build upon Slatkin's readings to explore Thetis and multiple roles she played in Western literature, art, material culture, religion, and myth. Ever the shapeshifter, Thetis has been and continues to be reconceptualised, supporter or opponent of Zeus' regime, model bride or unwilling victim of Peleus' rape, good mother or child murderer, figure of comedy or monstrous witch. Hers is an enduring power of transformation resonating within art and literature. **Challenges to the Power of Zeus in Early Greek Poetry** Noriko Yasumura,2013-10-16 In the earliest extant works of Greek literature, Zeus reigns supreme in the Olympian hierarchy. However, scattered and scanty though they may be, there are allusions to threats of rebellion which challenge Zeus' supremacy. This book examines these passages drawn from Homer, Hesiod, and the Homeric Hymns to offer some new interpretations. While focusing on the theme of cosmic divine strife, it becomes clear that hints of lost legends underlie these texts. Tracing their hidden logic helps to improve our understanding of early Greek poetry.
