Ajay Kansal,2012-04-23 Did gods create mankind or did mankind create gods Why when and how did mankind begin to worship gods Religious scriptures the world over claim that one or the other god made man but science has not yet identified any supernatural power that created and governed human beings Was it man who came up with the idea of gods to help him cope with his own fears Could it be that ancient people attributed natural phenomena unfathomable and frightening to them to the working of invisible gods What kind of sufferings or bewilderments made people bow before unseen powers or gods as we call them When were these gods created Who invented morals and methods of worship Who wrote the ancient scriptures such as the Bible and the Vedas Most crucially have gods and the scriptures shaped our responses to the world around us The Evolution of Gods seeks to answer these questions and explains scientifically how when and why religions and gods came into being Ajay Kansal marshals anthropological and historical facts about the development of religions in a simple and straightforward manner to assert that it was mankind that created gods and not the other way around    *Servant Leaders of the People of God* Robert Morris Schwartz,1989 A spirituality of the American priesthood based on the documents of Vatican II and the teaching of the U S bishops    *The Memorial Volume, a History of the Third Plenary Council of Baltimore, November 9-December 7, 1884* Baltimore Publishing Company,1885    [The priest's book of private devotion, compiled and arranged by J. Bussard, 1942     **Latter-day Saint Theology among Christian Theologies** Grant Underwood, 2025-03-13 How do the beliefs of Latter-day Saints compare with traditional Christian theology? Grant Underwood provides answers to this question that are clear, detailed, and thoughtful. Writing for a broad and interested Christian audience, he systematically brings Mormon thought into conversation with main currents of Christian theology. He focuses on major topics that have engaged Christian thinkers over the years: who God is, who Jesus Christ is, who we are, how we are saved, what the church is, and what the future holds for human history, as well as for individual human lives. Most chapters follow a format in which relevant themes are introduced with an overview of significant Christian reflection on the topic, followed by an exploration of Latter-day Saint thought on the subject. Throughout the book, Underwood's goal is to analyze, not catechize. While the author is a practicing Latter-day Saint, that reality only enhances his appreciation for the theology produced by centuries of fellow Christians of faith who, in Anselm's words, have diligently and devoutly sought understanding. Underwood seeks to facilitate mutual understanding among Christians who may worship differently, who conceive of God and God's relations with humanity differently, and who articulate their religious beliefs in terms and concepts that are unfamiliar to each other. Readers of this book are invited to approach its sympathetic presentation of such Christian theologies, including that of the Latter-day Saints, with an openness and curiosity that can lead to a more accurate, nuanced understanding of the doctrines discussed.
