The Practical Parent Raymond J. Corsini, Genevieve Painter, 1975 **The Practical Parent** Genevieve Painter, Raymond J. Corsini, 1984 Parenting Without Guilt G. Kenneth West, 1986 Foreign Service Assignment Notebook, 1985

Therapy with Single Parents Joan D Atwood, Frank Genovese, 2014-02-25 Provide effective counseling to members of single parent families. With more than half of all first marriages ending in divorce it's time to re think the notion that divorce means failure. Therapy with Single Parents focuses on the strengths of the single parent family rather than its weaknesses stressing the need to look at the socially constructed norms values and definitions associated with marriage and family in order to provide effective counseling. This unique book examines experiences that are common to single parents and presents interventive strategies for treating single parent family issues drawing on clinical case studies to provide technical knowledge in everyday language. Current research shows that single parents account for 27 percent of family households that include children under 18 and that the number of single mothers in the United States more than tripled between 1970 and 2000. Therapy with Single Parents challenges outdated notions that the single parent family is somehow deficient and associated with adjustment problems in children. It doesn't ignore the anger pain sadness and guilt experienced by many members of single parent families but offers therapeutic considerations from a more balanced approach. The book examines the social psychological and sexual experiences of newly single parents and addresses the ups and downs they'll face in dealing with schools the workplace and social services. Therapy with Single Parents examines social and psychological differences between divorce and widowhood cognitive behavioral principles of single parent families what children can learn from divorce dealing with the ghosts of past relationships relationship rules dealing with adult children and extended families the effect of change in divorcing families the feminization of poverty the therapeutic value of social networks. Therapy with Single Parents is an invaluable resource for psychologists professional counselors social workers and marriage and family therapists. The book presents a thorough in depth examination of the single parent family system as a viable healthy family form.

Working With Custodial Grandparents Bert Hayslip, 2003 The 18 papers of this collection on grandparents who raise their grandchildren are grouped into the broad categories of theory practical applications and empirical studies. Individual topics include case studies intervention research support groups cross discipline approaches to establishing caregiving guidelines the psychological adaptation of grandchildren building parenting skills and grandparent caregivers of children with developmental disabilities. The contributors teach psychology social work child development and gerontology at universities in the US. **Fetal Alcohol Abuse Syndrome** Ernest L. Abel, 2013-03-09 My initial purpose in writing this book was to offer readers an update of my book Fetal Alcohol Syndrome and Fetal Alcohol Effects Plenum 1984 which contained a broad overview of the history actually the absence of any history of the awareness of alcohol's teratogenic potential a review of alcohol's pharmacology especially with respect to pregnancy a survey of the physical and behavioral effects of prenatal

alcohol exposure and an overview of the mechanisms suspected of being responsible for those effects I have omitted most of the previously examined historical and pharmacological information because not much of what was previously discussed needed revision On the other hand because much more has been learned about the consequences of prenatal alcohol exposure and its potential mechanisms of action I have considerably expanded my discussion of these topics In doing so I have attempted to include as much new material as possible without I hope being overly pedantic and thereby losing the proverbial forest for the trees No book is ever entirely neutral in the topics it discusses the issues it raises or in its conclusions In sifting through hundreds and oftentimes thousands of articles writers have to choose which facts to emphasize and which to ignore Every idea cannot be chronicled and every article cannot and should not be cited In going about the business of picking and choosing however a writer has an obligation to present the arguments for and against a particular conclusion
