Negativity and Democracy Vasilis Grollios, 2017-01-12 The current political climate of uncompromising neoliberalism means that the need to study the logic of our culture that is the logic of the capitalist system is compelling Providing a rich philosophical analysis of democracy from a negative non identity dialectical perspective Vasilis Grollios encourages the reader not to think of democracy as a call for a more effective domination of the people or as a demand for the replacement of the elite that currently holds power In doing so he aspires to fill in a gap in the literature by offering an out of the mainstream overview of the key concepts of totality negativity fetishization contradiction identity thinking dialectics and corporeal materialism as they have been employed by the major thinkers of the critical theory tradition Marx Engels Horkheimer Lukacs Adorno Marcuse Bloch and Holloway Their thinking had the following common keywords contradiction fetishism as a process and the notion of spell and all its implications The author makes an innovative attempt to bring these concepts to light in terms of their practical relevance for contemporary democratic theory **How We Walk** Matthew Beaumont, 2024-03-12 In this fascinating and wide ranging book Beaumont reminds us that walking is far from a neutral activity With the help of Frantz Fanon Beaumont locates freedom at the level of the body free from the systems of oppression exploitation and harassment Lauren Elkin author of *Flâneuse* How race class and politics influence the way we move You can tell a lot about people by how they walk Matthew Beaumont argues that our standing walking body holds the social traumas of history and its racialized inequalities Our posture and gait reflect our social and political experiences as we navigate the city under capitalism Through a series of dialogues with thinkers and walkers his book explores the relationship between freedom and the human body *How We Walk* foregrounds the work of Frantz Fanon psychiatrist and leading thinker of liberation who was one of the first people to think about the politics of walking while black It also introduces us to the renegade psychoanalyst Wilhelm Reich who wrote that one could discern the truth about a person through their posture and gait For Marxist philosopher Ernst Bloch the ability to walk upright and with ease is a sign of personal and social freedom Through these excursions Beaumont reimagines the canonical literature on walking and presents a new interpretation of the impact of class and race on our physical and political mobility raising important questions about the politics of the body

From Ricoeur to Action Todd S. Mei, David Lewin, 2012-03-15 *From Ricoeur to Action* engages with the thinking of the French philosopher Paul Ricoeur 1913 2005 in order to propose innovative responses to 21st century problems actively

contributing to global conflict Ricoeur's ability to draw from a diverse field of philosophers and theologians and to provide mediation to seemingly irreconcilable views often has both explicit and implicit practical application to socio political questions Here an international team of leading Ricoeur scholars develop critical yet productive responses through the development of Ricoeur's thought with respect to such topics as race environmental ethics technology political utopia and reinterpreting religion Representing a new generation of Ricoeur scholarship that attempts to move beyond an exegetical engagement with his philosophy this collection of original essays examines key problems in the 21st century and the ways in which Ricoeur's philosophy understands the subtleties of these problems and is able to offer a productive response As such it presents an elucidation of the practical significance of Ricoeur's thinking and an innovative contribution to resolving socio political conflicts in the 21st century

The Demon of Politics Michele Filippini, Jamila M.H. Mascot, Matteo

Cavalleri, 2025-11-28 Mario Tronti is considered one of the most important Italian Marxist philosophers of our time as well as one of the most influential European political theorists of the post war period Largely untranslated and hence unknown in the anglophone world this is the second volume of a two volume translation The Demon of Politics presenting an invaluable picture of Tronti's political life and intellectual activity through a selection of his most relevant writings Volume II paints a fascinating picture of Tronti's work in the 1980s 1990s and 2000s through his engagement with the traditions of political realism negative thinking and political theology Essays herein also tackle the legacy of the 20th century from the angle of an intense reflection on the relations between history and politics An introduction written by the editors contextualises Tronti's writings during the second part of his career while also providing the biographical and political details necessary to understand the evolution of his thought in the later years Footnotes throughout the volume provide valuable precisions and elements of contextualisation throughout the whole volume The volumes of The Demon of Politics offer the most comprehensive edition of Tronti's works available to students and scholars
