## **Land Use Law:**

Land Use Law for Sustainable Development Nathalie J. Chalifour, Patricia Kameri-Mbote, Lin Heng Lye, John R. Nolon, 2006-11-20 This 2007 book surveys the global experience to date in implementing land use policies that move us further along the sustainable development continuum. The international community has long recognized the need to ensure ongoing and future development is conducted sustainably. While high level commitments towards sustainable development such as those included in the Rio and Johannesburg Declarations are politically important they are irrelevant if they are not translated into reality on the ground. This book includes chapters that discuss the challenges of implementing sustainable land use policies in different regions of the world revealing problems that are common to all jurisdictions and highlighting others that are unique to particular regions. It also includes chapters documenting new approaches to sustainable land use such as reforms to property rights regimes and environmental laws. Other chapters offer comparisons of approaches in different jurisdictions that can present insights which might not be apparent from a single jurisdiction analysis.

Current Trends and Practical Strategies in Land Use Law and Zoning Patricia E. Salkin, 2004 This useful guide is a compilation of significant trends in land use law featuring landmark court decisions from the U.S. Supreme Court, federal district courts and state high courts.

Advanced Introduction to U.S. Land Use Law Stephen R. Miller, 2025-02-12 This incisive and approachable book presents an overview of land use law and policy in the United States. Stephen R. Miller examines the legal processes that empower and restrict professional urban planning practice through a narrative that brings together classic cases, innovative codes and constitutional law.

The Nutshell clearly explains the legal aspects of land planning and regulation, project review processes and innovative and flexible regulatory devices. Subdivision and site plan regulation, local environment law, discrimination in zoning based on race and religion, regulatory takings, inverse condemnation and community development practices are all explored. An appendix of internet based resources is also provided.
