Escape from Freedom Erich Fromm,1941 If humanity cannot live with the dangers and responsibilities inherent in freedom it will probably turn to authoritarianism This is the central idea of *Escape from Freedom* a landmark work by one of the most distinguished thinkers of our time and a book that is as timely now as when first published in 1941 Few books have thrown such light upon the forces that shape modern society or penetrated so deeply into the causes of authoritarian systems If the rise of democracy set some people free at the same time it gave birth to a society in which the individual feels alienated and dehumanized Using the insights of psychoanalysis as probing agents Fromm s work analyzes the illness of contemporary civilization as witnessed by its willingness to submit to totalitarian rule **Volume 13:**

Kierkegaard's Influence on the Social Sciences Jon Stewart,2016-12-05 Kierkegaard has long been known as a philosopher and theologian but his contributions to psychology anthropology and sociology have also made an important impact on these fields In many of the works of his complex authorship Kierkegaard presents his intriguing and unique vision of the nature and mental life of human beings individually and collectively The articles featured in the present volume explore the reception of Kierkegaard s thought in the social sciences Of these fields Kierkegaard is perhaps best known in psychology where *The Concept of Anxiety* and *The Sickness unto Death* have been the two most influential texts With regard to the field of sociology social criticism or social theory Kierkegaard s *Literary Review of Two Ages* has also been regarded as offering valuable insights about some important dynamics of modern society [The Fear of Freedom](#) Francis Biddle,1951

Steve Biko Tendayi Sithole,2016-07-26 Moving away from the domain of commemorative iconicity monumentalization and memorialization Sithole uses Steve Biko s meditations as a discursive intervention to understand black subjectivity The epistemological shift of this book is not to be bogged down by the cataloging of events something that is popular in the literature of Steve Biko and Black Consciousness Rather a theoretical imagination and conceptual invention is engaged upon in order to situate Biko within the existential repertoire of blackness as a site of subjectivity and not the object of study The theoretical imagination and conceptual invention fosters an interpretive approach and an ongoing critique that cannot reach any epistemic closure This is what decolonial meditations are all about opening up new vistas of thought and new modes of critique informed by epistemic breaks from empirical absolutism that reduce Biko to an epistemic catalogue It is in Steve Biko Decolonial Meditations of Black Consciousness that the black subject is engaged not only in the politics of criticism for its own sake but philosophy of existence The Oxford Handbook of Reinhold Niebuhr Robin Lovin,Joshua Mauldin,2021
