A Fairy Tale Ending:

Magic Carpet Ride Joan Vydra, Ann Lupkowski-Shoplik, 2005 This complete guide to fairy tales is sure to be a student's favorite. These timeless stories provide an excellent place to begin an in-depth analysis of story development. Stimulating projects give students additional opportunities to apply creativity and develop language skills. Grades 1-3 Kafka, Gothic and Fairytale Patrick Bridgwater, 2021-11-08 Kafka Gothic and Fairytale is an original comparative study of the novels and some of the related shorter punishment fantasies in terms of their relationship to the Gothic and fairytale conventions. It is an absorbing subject and one which while keeping to the basic facts of his life, mind, set and literary method shows Kafka's work in a genuinely new light. The contradiction between his persona with its love of fairytale and his shadow with its affinity with Gothic is reflected in his work which is both Gothic and other than Gothic, both fairytale-like and the every denial of fairytale. Important subtexts of the book are the close connexion between Gothic and fairytale and between both of these and the dream. German text is quoted in translation unless the emphasis is on the meaning of individual words or phrases in which case the words in question are quoted and their English meanings discussed. This means that readers without German can for the first time begin to understand the underlying ambiguity of Kafka's major fictions. The book is addressed to all who are interested in the meaning of his work and its place in literary history but also to the many readers in the English and German speaking worlds who share the author's enthusiasm for Gothic and fairytale. **Taylor Swift** Christa Anne Bentley, Kate Galloway, Paula Clare Harper, 2025-03-10 From studio albums to stadium tours Taylor Swift is a record setting pop artist whose impacts are outsized and global in scale. At the same time she has cultivated an audience base that finds her her songs and her voice eminently relatable. Taylor Swift: The Star, The Songs, The Fans positions Swift as a prismatic figure for the musical world of the 21st century. This collection includes new work from interdisciplinary scholars who focus on Swift's star persona, the lyrics, themes and meanings of Swift's songs and the ways that fans interact with Swift's work and with each other. Together the essays evaluate Swift's career with attention to how her work has resonated in a changing global society, how she has navigated shifts in the music industry and how she has negotiated changes in her musical transition from country to pop along the lines of her age, gender, race and class identity. Including contributions by scholars, practitioners and journalists, this book offers a serious consideration of one of today's most popular music stars that shows why and how she matters. Engaging a wide variety of disciplines and methodological perspectives including fan studies, cultural studies, philosophy, musicology and music theory, journalism and songwriting, Taylor Swift: The Star, The Songs, The Fans will be of interest to students and scholars of music, media studies, popular culture, fan studies, gender and sexuality studies and sound studies.
