The Basuto Hugh Ashton, 2018-08-16 Originally published in 1952 and as a second edition in 1967 this volume provides a systematic and comprehensive account of the Basuto people and their changing culture and reviews the developments and changes leading up to 1966 when Basutoland achieved independence as Lesotho. It describes in detail daily lives, the education and upbringing of children, initiation, marriage, economic activities and political developments within and outside the country. It includes a discussion of tribal and modern law and the workings of the courts and a study of the part played by magic and sorcery and an analysis of the motives leading to the outbreak of medicine murders in the 1940s. **Debates of the Transkei Legislative Assembly** Transkei (South Africa). The Secretary General constitutes these observer missions at the request of governments and with the agreement of all significant political parties. At the end of a mission a report is submitted to the Secretary General who makes it available to the government of the country in question, the political parties concerned and to all Commonwealth governments. All the papers in this volume, however, take agreement phenomena seriously as presenting either a general issue in theory construction or a descriptive problem in particular types of languages. The theoretical perspectives range from purportedly theory-neutral typological frameworks to assumptions about the validity of one or another current formal model. Further, the degree of generality ranges from a universalist nature of human language to concern with one or another aspect of grammatical agreement or with agreement in a single language or language group. **African Books in Print**, 1978 **Lesotho, a Review of Commerce and Industry**, 1992 **Annual Report on Basutoland** Great Britain.
