Dante Studies Charles Southward Singleton, 1954 **Tai-nui** John White, 1889 **Mapping Paradise** Alessandro Scafì, 2006 Throughout history humans have searched for paradise When early Christians adopted the Hebrew Bible and with it the story of Genesis the Garden of Eden became an idyllic habitat for all mankind Medieval Christians believed this paradise was a place on earth different from this world and yet part of it situated in real geography and indicated on maps From the Renaissance through the Enlightenment the mapping of paradise validated the authority of holy scripture and supported Christian faith But from the early nineteenth century onwards the question of the exact location

of paradise was left not to theologians but to the layman And at the beginning of the twenty first century there is still no end to the stream of theories on the location of the former Garden of Eden Mapping Paradise is a history of the cartography of paradise that journeys from the beginning of Christianity to the present day Instead of dismissing the medieval belief in a paradise on earth as a picturesque legend and the cartography of paradise as an example of the period's many superstitions Alessandro Scafi explores the intellectual conditions that made the medieval mapping of paradise possible The challenge for mapmakers Scafi argues was to make visible a place that was geographically inaccessible and yet real remote in time and yet still the scene of an essential episode of the history of salvation Mapping Paradise also accounts for the transformations in both theological doctrine and cartographical practice that brought about the decline of the belief in a terrestrial paradise and the emergence of the new historical and regional mapping of the Garden of Eden that began at the time of the Reformation and still continues today The first book to show how paradise has been expressed in cartographic form throughout two millennia Mapping Paradise reveals how the most deeply reflective thoughts about the ultimate destiny of all human life have been molded and remolded generation by generation *The Origins Solution* Dick Fischer, 1996 This book is creating a firestorm of academic debate Fischer proposes that Adam was created under a covenant with God and was inserted into an already populated world His harmonization of Genesis with history and science puts this issue to rest

The Gates of Heaven Penelope Squibb, 2008-05-19 *The Gates of Heaven* begins the day after war has been declared With war fever raging Giles Blakeney sets about forming the Vale of Eden Yeomanry Daniel Bloom and his friends enlist in a Pals Battalion Teddie and Clemmie begin nursing and Lady Mae turns Edenhall into a convalescent home Will is in France looking for runaway Sidonie She does not wish to be found but finds salvation in an unusual way Teddie loves Sigi but with anti German feelings high all must be hidden Hugo is in France with the BEF followed by the Blakeney boys and Daniel Bloom The German cousins Sigi and Hansie already soldiers are in France too Teddie and Clemmie go to France to nurse as battles take their toll Sidonie's problems seem insoluble and she alienates those who try to help her The war ends and the survivors gather at Edenhall Can Edenhall work its magic Teddie wants only to turn the clock back to the summer of 1914 before the gates of heaven opened wide for the stream of humanity passing through
