biosphere with an emphasis on the effects of the widespread use of carbon based fuels Apply the engineering design process EDP to solve a problem and design and build a small scale electric vehicle Synthesize their learning and working collaboratively by creating and presenting a plan for a race team that minimizes its environmental impact Create an engaging presentation incorporating oral presentations and visual displays to present projects to an audience of peers teachers and industry professionals The STEM Road Map Curriculum Series is anchored in the Next Generation Science Standards the Common Core State Standards and the Framework for 21st Century Learning In depth and flexible The Speed of Green can be used as a whole unit or in part to meet the needs of districts schools and teachers who are charting a course toward an integrated STEM approach
