Coffman, 2011-08-26 We are celebrating this year the hundred years anniversary of allergen specific immunotherapy In 1911 Leonard Noon published his seminal work Prophylactic inoculation against hay fever describing his attempts to achieve active immunity against grass pollen toxin by administering increasing doses of grass pollen extract before the grass pollen season to allergic patients Although it was unknown at that time that allergy represents an immunological hypersensitivity disease the treatment was effective and many observations made by Noon remained valid until today Today allergen specific immunotherapy is well established as the only allergen specific and disease modifying treatment for IgE mediated allergies and has long lasting effects In fact more than 25% of the population suffer from IgE mediated allergies which therefore represent a major health burden of our society particularly because untreated allergy often progresses to severe disabling forms of disease such as asthma and sometimes kills sensitized people through anaphylaxis L'Arche des enfants Vladimir Lipovetsky, 2015-10-21 R cit traduit du russe par Marilyne Fellous En 1918 au lendemain de la Premi re Guerre mondiale alors que la guerre civile s vissait en Union sovi tique il fut d cid d envoyer huit cents enfants de Saint P tersbourg dans le

sud de la Russie ainsi que dans l'Oural et en Sibirie afin de leur permettre d'échapper la famine et aux violences de la guerre civile. Partis pour quelques mois, ce n'est que quatre ans plus tard que ceux qui survécurent revinrent dans leur patrie après avoir été pris en charge par la Croix Rouge américaine et traversé la Chine, le Japon, les États-Unis et une partie de l'Europe. C'est ce voyage hallucinant que raconte ici en imaginant certains dialogues et en citant des extraits de lettres de journaux intimes Vladimir Lipovetsky qui a consacré vingt ans de sa vie à faire des recherches interrogeant les survivants de cette odysée et consultant les archives aussi bien aux États-Unis qu'en Russie.
