web find out more about magnetic fields what is an electromagnet apart from the magnetic moments of the electrons the other thing that produces magnetic fields are electric charges this discovery back in the 1830s has been one of the most important in history as it created the link between magnetism and electricity

**magnetism wikipedia** - Jan 08 2023

web e magnetism is the class of physical attributes that occur through a magnetic field which allows objects to attract or repel each other because both electric currents and magnetic moments of elementary particles give rise to a magnetic field magnetism is one of two aspects of electromagnetism
