Ralph TREVOR (pseud.),1940 **Wild Visions** Ben A. Minteer,Mark Klett,Stephen J. Pyne,2022-01-01 A stunning combination of landscape photography and thematic essays exploring how the concept of wilderness has evolved over time Our ideas of wilderness have evolved dramatically over the past one hundred and fifty years from a view of wild country as an inviolable place apart to one that exists only within the matrix of human activity This shift in understanding has provoked complicated questions about the importance of the wild in American environmentalism as well as new aesthetic expectations as we reframe the wilderness as to some degree a human creation Wild Visions is distinctive in its union of landscape photography and environmental thought a merging of short thematic essays with a striking visual narrative Often the wild is viewed in binary terms either revered as sacred and ecologically pure or dismissed as spoiled by human activities This book portrays wilderness instead as an evolving gamut of understandings a collage of views and ideas that is still in process
