## **Sporting Relations:**

British Sporting Relations with Apartheid South Africa Matthew P. Llewellyn, Toby C. Rider, 2024-11-25 The transnational anti apartheid sport boycott of South Africa represented the most prominent extended and controversial anti racism campaign in the history of sport Spearheaded by prominent British religious and anti colonial figures and exiled South Africans emboldened by communist and Global South support and legitimised by supranational political bodies such as the United Nations the Organisation of African Unity and the Commonwealth the sport boycott helped propel anti apartheid out of relative obscurity and struck at the very heart of a cultural practice that served an explicitly ideological function in Afrikaner society Britain held a dichotomous even paradoxical role as both prosecutor and defender of white South Africa This book utilises sport as a critical lens for understanding the dynamics and dichotomies of British attitudes towards the apartheid regime Debates over whether to continue or to cut sporting links with apartheid South Africa proved bitterly divisive The considerable weight the subject carried and the degree to which it saturated British political and social discourse for four decades speaks to its impact and importance British Sporting Relations with Apartheid South Africa represents the first archival based historical examination of Britain's sporting relations with South Africa throughout the apartheid era 1948-1994 Situating the analysis within the shifting multiracial and multicultural landscapes of postcolonial Britain and within global political cultural sporting and ideological debates the authors trace the origins and evolution of the transnational sport boycott and examine what inspired Britons to energise anti apartheid sport campaigns and in contrast what drove many others to vehemently oppose them at every turn **Sport and International Relations** ADRIAN BUDD, ROGER LEVERMORE, 2004-06 The contributors to this collection argue that sport remains an understudied aspect of international relations and that the growth of its importance should be seen in the complex interdependencies and global systems of governance **South Africa's Foreign Relations, 1961-1979**, 1980 *Sporting Adventures of Charles Carrington, Esq., and Other Stories*, 1899 *Sporting Anecdotes* James Glass Bertram, 1889 *Sports Diplomacy* Stuart Murray, 2018-06-13 This book offers an accessible overview of the role sport plays in international relations and diplomacy Sports diplomacy has previously been defined as an old but under studied aspect of the estranged relations between peoples nations and states These days it is better understood as the conscious strategic and ongoing use of sport sportspeople and sporting events by state and non state actors to advance policy trade development education image reputation brand and people to people links In order to better understand the many occasions where sport and diplomacy overlap this book presents four new inter disciplinary and theoretical categories of sports diplomacy traditional new sport as diplomacy and sports anti diplomacy These categories are further validated by a large number of case studies ranging from the Ancient Olympiad to the recent appearance of esoteric government sports diplomacy strategies and beyond to the activities of non state sporting actors such as FC Barcelona Colin Kaepernick and the digital world of e sports As a result the landscape of

sports diplomacy becomes clearer as do the pitfalls and limitations of using sport as a diplomatic tool This book will be of much interest to students of diplomacy foreign policy sports studies and International Relations in general
