Women's Ways of Making It in Rhetoric and Composition Michelle Ballif, D. Diane Davis, Roxanne Mountford, 2010-03-17

This volume explores how women in the fields of rhetoric and composition have succeeded despite the challenges inherent in the circumstances of their work. Focusing on those women generally viewed as successful in rhetoric and composition, this volume relates their stories of successes and failures to serve as models for other women in the profession who aspire to make it too to succeed as women academics in a sea of gender and disciplinary bias and to have a life as well. Building on the gains made by several generations of rhetoric and composition scholars, this volume provides strategies for a newer generation of scholars entering the field and in so doing broadens the support base for women in the field by connecting them with a greater web of women in the profession. Offering frank discussion of professional and personal struggles as well as providing reference materials addressing these concerns, solid career advice and inspirational narratives told by women who have made it in the field of rhetoric and composition, this work highlights such common concerns as dealing with sexism in the tenure and promotion process, maintaining a balance between career and family, struggling for scholarly and administrative respect, mentoring junior women, finding one's voice in scholarship and struggling to say no to unrewarded service work. The profiles of individual successful women describe each woman's methods for success, examine the price each has paid for that success, and pass along the advice each has to offer other women who are beginning a career in the field or attempting to jumpstart an existing career. With resources and general advice for women in the field of rhetoric and composition to guide them through their careers as they become, survive and thrive as professionals in the discipline, this book is a must-have reading for every woman making her career in the rhetoric and composition fields. **Understanding**

Authority in Higher Education Dean O. Smith, 2015-01-22 Within the complex environment of higher education, administrators and faculty members face daunting challenges in their unique domains of institutional governance. Many of the greatest challenges arise from basic misunderstandings of authority and its limitations by administrators and faculty members alike. These misunderstandings are the primary source of disruptive confusion, mistrust, and mismanagement. Consequently, an institution's governance would improve significantly if its personnel clearly understand the fundamental principles of authority. To bring about this improvement, *Understanding Authority in Higher Education* clarifies issues of authority in an academic setting. Throughout, it introduces basic concepts of higher education administration and then examines the limits of authority in context. Pedagogically, the book strives continuously to ascertain whether authority is used properly from a legal perspective, emphasizing the influence of academic cultural norms on legal principles and vice versa. But *Understanding Authority in Higher Education* goes further than law textbooks by using real and anecdotal case studies to examine aspects of authority that don't appear in court proceedings: those that lie beyond the reach of the law. In these cases, the book explores the anthropology, the behavior, and the culture of authority in the academic environment. **Military**
