Catalog of Copyright Entries. Part 1. [C] Group 3. Dramatic Composition and Motion Pictures. New Series Library of Congress. Copyright Office, 1943 Insidious Foes Francis MacDonnell, 1995-11-02 Nazi Germany's efforts to weaken the United States by subversion failed miserably. Bungling spies were captured and half hearted efforts at sabotage came to nothing. Yet anyone who lived through WWII remembers the chilling posters warning Americans that Enemy Agents Have Big Ears and Loose Lips Sink Ships. Even Superman joined the struggle against these insidious foes. In 1940 polls showed that 71% of Americans believed a Nazi Fifth Column had penetrated the country. Almost half were convinced that spies, saboteurs, dupes and rumor mongers lurked in their own neighborhoods and work places. These fears extended to the White House and Congress. In this book Francis MacDonnell explains the origins and consequences of America's Fifth Column panic, arguing that conviction and expedience encouraged President Roosevelt, the FBI, Congressmen, Churchill's government and Hollywood to legitimate and exacerbate American's fears. Gravely weakening the isolationists, fostering Congress's role in rooting out Un-American activities and instigating the creation of the modern intelligence establishment, the Fifth Column scare did far more than sell movie tickets, comic books and pulp fiction. *Insidious Foes* traces the panic from its origins in the minds of reasonable Americans who saw the vulnerability of their open society in an age of encroaching totalitarianism.

Major Events of the Nuclear Age Erik V. Nordheim, 1967 Churchill, Roosevelt & Company Lewis E. Lehrman, 2017-01-30 During World War II the special relationship between the United States and Great Britain cemented the alliance that won the war. But the ultimate victory of that partnership has obscured many of the conflicts behind Franklin Roosevelt's grins and Winston Churchill's victory signs, the clashes of principles and especially personalities between and within the two nations.

Synthesizing an impressive variety of sources from memoirs and letters to histories and biographies, Lewis Lehrman explains how the Anglo-American alliance worked and occasionally did not work by presenting portraits and case studies of the men who worked the back channels and back rooms, the secretaries and under secretaries, ambassadors and ministers responsible for carrying out Roosevelt's and Churchill's agendas while also pursuing their own and thwarting others. This was the domain of Joseph Kennedy, American ambassador to England, often at odds with his boss' spymasters William Donovan and William Stephenson, Secretary of State Cordell Hull, whom FDR frequently bypassed in favor of Under Secretary Sumner Welles. British ambassadors Lord Lothian and Lord Halifax and above them all, Roosevelt and Churchill, who had the difficult task not always well performed of managing their subordinates and who frequently chose to conduct foreign policy directly between themselves. Scrupulous in its research and fair in its judgments, Lehrman's book reveals the personal diplomacy at the core of the Anglo-American alliance.
