## Square Root Of Murder:

**A Function of Murder** Ada Madison, 2012-12-31 Dr Sophie Knowles is a math professor with a knack for creating complex puzzles that delight her students. But now at the close of the academic year she must solve a crime that doesn't quite add up. At the math department's graduation party Sophie hears heated arguments coming from the graduates about Mayor Graves the commencement speaker. Not the mayor's biggest fan Sophie is happy to escape the drama with an after hours campus stroll accompanied by her helicopter piloting boyfriend Bruce Granville. However their date is interrupted by the mayor himself with a knife in his back. As it turns out the knife is actually a Henley College letter opener something that is gifted to every member of the graduating class. Sophie is led to a complicated puzzle of scandal and corruption and it seems that Mayor Graves is at the apex of it all. When Sophie finds out that the mayor was seeking her help on the day he was murdered she must use her top notch logic to crack the puzzle and catch the killer running free on campus. *The Quotient of Murder* Ada Madison, 2013-11-05

Dr Sophie Knowles loves using puzzles to make math fun for students. But when winter seizes Henley College she must thaw out a cold case to track down a killer her most difficult puzzle yet. Winter Intersession is in full swing and campus is buzzing over the concert celebrating the bell tower's reopening. The building has been shuttered for twenty five years and Sophie's shocked to learn why a student leapt from it to her death. But she's even more troubled by the secrecy surrounding the case. After Sophie performs some quick calculations she's left with a nagging question. Was it really suicide? When one of Sophie's favorite students a performer in the concert is brutally beaten and left in a coma Sophie's mind kicks into overdrive. The horrific incidents seem too coincidental to be unrelated but can Sophie put together the pieces from a twenty five year old murder before any other students get hurt. *The Square Root of Murder* Ada Madison, 2011

While celebrating famous scholars of the past with her students Dr Sophie Knowles a much loved math teacher at Henley College must add up the clues to prove her assistant's innocence when she is accused of killing Dr Keith Appleton the most disliked professor on campus. **Killer's Dozen** Richard A. Lupoff, 2010-03-01 From the Introduction by Ed Gorman If there's one thing Dick Lupoff understands with perverse glee it's the sorry state of the human condition. In this collection you'll find a wide variety of humans whose conditions leave much to be desired. A pit bull owner who's just as nasty as his dog. A thief who believes his father in law was a real Nazi. A dead end boxer who has come back in a boxing movie. A detective named Caligula Foxx who might be Nero Wolfe in drag. A crooked corporal whose payoff is death. Not only are the storylines original the writing is indelibly stamped with Dick's vision and voice. Dick's writing talents really can't be defined by the usual means. Yes he writes science fiction. Yes he writes fantasy. Yes he writes mystery. But what he really writes are Lupoffs. Long short hilarious whimsical dark mysterious they're all Lupoffs. Richard A. Lupoff is the author of many books including the popular Lindsey and Plum mysteries. The next of these *The Emerald Cat Killer* will be published by St Martin's Press in October 2010. His most recent collection of mysteries is *Quintet: The Cases of Chase and Delacroix* published by Crippen Landru. **The**
