Looney s Grotto is an action adventure with a gothic horror twist This is a decadent and depraved tale whereby the victim  
becomes the predator He invents an estranged underworld for his animals and ally When the victim becomes the predator he  
literally enslaves his adversaries refers to them as animals and treats them as such They in return referred to him as the  
looney but never in his presence The looney acquires an ally that was so mistreated by two of the animals that she became  
slightly deranged She seeks payback by assiting the looney in reprimanding the animals in various unique forms of  
chastening and discipline Most of which were considered appropriate in years past but would be frowned upon in our so  
called civilized world The obstacles he has to overcome are many as well as heroic in nature Self sacrifice and determination  
play a large part in his journey toward his goal     *Circular* Oklahoma Geological Survey,2003     *Nature* ,1873     *Omni*
