The Fox My First Of Nature:

Nature's Greatest Success Robert N. Spengler III, 2025-05-06 The 15 000 year story of how grass seduced humanity into being its unwitting labor force and the science behind it Domesticated crops were not human creations and agriculture was not simply invented As Robert N Spengler shows domestication was the result of an evolutionary process in which people played a role only unwittingly and as actors in a numberless cast that spanned the plant and animal kingdoms Nature s Greatest Success is the first book to bring together recent scientific discoveries and fascinating ongoing research to provide a systematic account of not only how agriculture really developed but why Through fifteen chapters this book dives deep into the complex processes that drove domestication and the various roles that plants and animals including humans played in bringing about those changes At the intersection of popular history archaeology and evolutionary biology Nature s Greatest Success offers a revolutionary account of humanity not at the apex of nature but deeply embedded in the natural world and the evolutionary processes that continue to guide it even today *Nature's Second Chance* Steven Apfelbaum, 2010-02-01 Renowned conservationist Aldo Leopold once wrote A thing is right when it tends to preserve the integrity stability and beauty of the biotic community It is wrong when it does otherwise Few have taken Leopold s vision more to heart than Steven I Apfelbaum who has over the last thirty years transformed his eighty acre Stone Prairie Farm in Wisconsin into a biologically diverse ecosystem of prairie wetland spring fed brook and savanna In healing his land Apfelbaum demonstrates how humans might play a starring role in healing the planet A Complete Word and Phrase Concordance to the Poems and Songs of Robert Burns J.
