Sex, Death and Resurrection in Altered Carbon Aldona Kobus, Łukasz Muniowski, 2020-01-31 The 2018 Netflix series Altered Carbon is a vital contribution to the cyberpunk renaissance among such titles as Snowpiercer or Blade Runner 2049 This collection of new essays answers the question is this increasing popularity of cyberpunk a sign of recognition of the genre's transgressive aspects such as a stark critique of capitalism or is it the opposite a sign of the genre's failure to successfully criticize modernity The contributors consider the series as taking on current issues from a critique of neoliberalism through the ethical aspects of biotechnology up to thanatology They provoke questions about what it means to be human in a world in which death does not exist Essays evaluate the surging popularity of the series and cyberpunk at large from a variety of critical perspectives shedding new light on a challenging and inventive series

History of His Life and Labors Wilford Woodruff, 2018-04-05 Reproduction of the original History of His Life and Labors by Wilford Woodruff

Egyptian Book of the Dead and the Mysteries of Amenta Gerald Massey, 2008-01-01 There is no death in the Osirian religion only decay and change and periodic renewal only evolution and transformation in the domain of matter and the transubstantiation into spirit In the so called death of Osiris it is rebirth not death exactly the same as in the changes of external nature At the close of the day the solar orb went down and left the sun god staring blankly in the dark of death Taht the moon god met him in Amenta with the

eye of Horus as the light that was to illuminate the darkness of the subterranean world from Egyptian Book of the Dead and the Mysteries of Amenta. It goes unappreciated by modern Egyptologists but it is embraced by those who savor the concept of a hidden history of humanity and those who approach all human knowledge from the perspective of the esoteric. Gerard Massey's massive *Ancient Egypt: The Light of the World* first published in 1907 and the crowning achievement of the self-taught scholar redefines the roots of Christianity via Egypt, proposing that Egyptian mythology was the basis for Jewish and Christian beliefs. Here Cosimo proudly presents Book 4 of *Ancient Egypt* in which Massey discusses the Egyptian Book of the Dead as the pre-Christian word of God and explores the idea that Amenta, the threshold to the Egyptian underworld, is the first overt expression of a human desire for a noncorporeal afterlife. Massey goes on to connect the mystery of the mummy to the mystery of the Christ by likening the Christian dogma of physical resurrection to the Egyptian impetus for mummification. Peculiar and profound, this work will intrigue and delight readers of history, religion, and mythology.

British author GERALD MASSEY (1828-1907) published works of poetry, spiritualism, Shakespearean criticism, and theology, but his best-known works are in the realm of Egyptology, including *A Book of the Beginnings* and *The Natural Genesis*. *The Bell Tolls for No One* Charles Bukowski, 2015. From the self-illustrated unpublished work written in 1947 to hardboiled contributions to 1980s adult magazines, *The Bell Tolls for No One* presents the entire range of Bukowski's talent as a short story writer, from straight-up genre stories to postmodern blurring of fact and fiction. An informative introduction by editor David Stephen Calonne provides historical context for these seemingly scandalous and chaotic tales, revealing the hidden hand of the master at the top of his form. The uncollected gutbucket ramblings of the grand dirty old man of Los Angeles letters have been gathered in this characteristically filthy, funny compilation. Bukowski's gift was a sense for the raunchy absurdity of life, his writing a grumble that might turn into a belly laugh or a racking cough, but that always throbbed with vital energy.

Kirkus Reviews: Born in Andernach, Germany, and raised in Los Angeles, Charles Bukowski published his first story when he was twenty-four and began writing poetry at the age of thirty-five. His first book of poetry was published in 1959; he would eventually publish more than forty-five books of poetry and prose. He died of leukemia in San Pedro, California, on March 9, 1994. David Stephen Calonne is the author of several books and has edited three previous collections of the uncollected work of Charles Bukowski for City Lights: *Absence of the Hero*, *Portions from a Wine-Stained Notebook*, and *More Notes of a Dirty Old Man*. **The Demon of Noontide** Reinhard Clifford Kuhn, 2017-03-14. Kierkegaard claimed that the gods created man because they were bored, and Baudelaire predicted that the delicate monster of boredom would one day swallow up the whole world in an immense yawn. Between these two statements lies the undefined expanse of ennui, whose manifestations in European literature form the fascinating subject of this book. Reinhard Kuhn's aim is to define the demon of noontide, to learn how writers through the ages have treated it, and to discover what it indicates about the nature of the creative act.
