Bastos,2016-03-22 This volume on medical tourism includes contributions by anthropologists and historians on a variety of health seeking modes of travel and leisure It brings together analyses of recent trends of medical tourism such as underinsured middle class Americans traveling to India for surgery pious Middle Eastern couples seeking assisted reproduction outside their borders or consumers of the exotic in search of alternative healing with analyses of the centuries old Euro American tradition of traveling to spas Rather than seeing these two forms of medical travel as being disparate the book demonstrates that as noted in the introduction what makes patients itinerant in both the old and new kind of medical travel is either a perceived shortage or constraint at home or the sense of having reached a particular kind of therapeutic impasse with the two often so intertwined that it is difficult to tell them apart The constraint may stem from things as diverse as religious injunctions legal hurdles social approbation or seasonal affliction and the shortage can range from a lack of privacy of insurance technology competence or enough therapeutic resources that can address issues and conditions that patients have If these two intertwined strands are responsible for most medical tourism then which locales seem to have therapeutic resources are those that are either natural in the form of water or climate legal in the form of a culture that does not stigmatise patients or technological and professional in the form of tests equipment or expertise unavailable or affordable at home or in the form of novel therapeutic possibilities that promise to resolve irresolvable issues This book was originally published as a special issue of Anthropology Medicine

Literally hundreds of Virginia buildings of architectural or historical interest have vanished Most were demolished or burned while others were abandoned as populations and needs shifted The consequence is that important models of architectural accomplishment and key symbols of human aspiration and achievement have disappeared and are largely forgotten Lost Virginia is an effort to document and reconstruct the appearance of Virginia architecture in earlier times when the nation's destiny and history were intimately tied to the Old Dominion's landscape and buildings It seeks to recover at least on paper an impression of our lost architectural heritage Organized into categories of domestic civic religious and commercial buildings the more than three hundred vanished structures illustrated within include slave pens in Alexandria George Washington's singular sixteen sided barn a one room schoolhouse in Greene County and the 18th century Valley homes long mistaken for forts of German speaking settlers Soldiers in both blue and gray tramped by the now lost Rockingham County courthouse and a cathedral like federal post office in Roanoke joins Rockbridge County's fantastic Alleghany Hotel on the list of exceptional but short lived buildings Also documented are creations like Frank Lloyd Wright's Larkin Company Pavilion destroyed just months after it had been erected for the Jamestown Tercentennial Exhibition and the Thomas Jefferson

designed Barboursville in Orange County jacket *Working At Play* Cindy S. Aron,1999-05-13 In *Working at Play* Cindy Aron offers the first full length history of how Americans have vacationed from eighteenth century planters who summered in Newport to twentieth century urban workers who headed for camps in the hills In the early nineteenth century vacations were taken for health more than for fun as the wealthy traveled to watering places seeking cures for everything from consumption to rheumatism But starting in the 1850s the growth of a white collar middle class and the expansion of railroads made vacationing a mainstream activity Aron charts this growth with grace and insight tracing the rise of new vacation spots as the nation and the middle class blossomed She shows how late nineteenth century resorts became centers of competitive sports bowling tennis golf hiking swimming and boating absorbed the hours But as vacationing grew she writes fears of the dangers of idleness grew with it Religious camp grounds where gambling drinking and bathing on Sundays were prohibited became established resorts At the same time self improvement vacations began to flourish allowing a middle class still uncomfortable with the notion of leisure to feel productive while at play With vivid detail and much insight *Working at Play* offers a lively history of the vacation throwing new light on the place of work and rest in American culture *West Virginia History* ,1981
