

Three women with blonde, red, and dark hair are posed in the center of the frame. They are all wearing identical red and white maid-style outfits, which include a red strapless top with white ruffled trim, a white apron, and a white headband with a red band and a large white bow. They are all looking directly at the camera with neutral expressions. The background is a solid, deep red color.

Freeman, EdD, ABPP,2004-11-18 Within the field of clinical psychology the term borderline personality disorder was
developed to fulfill a diagnostic need and has come to possess specific stereotypes and negative meanings Because the term
borderline is an emotionally charged word it can lead to a less than accurate view of the situation or patient being described
thus presenting a challenge to even the most experienced therapists and becoming one of the most complex disorders to
treat Through the use of one case study however experts in borderline personality disorders have put this difficulty at ease
Applying a variety of modalities to identify treatment goals including selecting assessment tools conceptualizing progression
pinpointing pitfalls and developing techniques diagnosing and treating BPD has created a more successful therapeutic result
