**Consumer Survival** Wendy Reiboldt, Melanie Horn Mallers, 2013-11-26 Designed to empower readers to advocate for themselves and others, this wide ranging encyclopedia reveals a surprising range of resources and options that consumers have at their disposal. The only book of its kind, this two volume, alphabetically arranged reference, covers a broad array of topics related to consumer rights, including those of interest to often overlooked populations such as older adults, veterans and the homeless. Specific entries address critical areas including food and product safety, housing, health care, the financial industry, the automobile industry and telecommunications. The encyclopedia reviews the historical development of the consumer movement, examines beliefs and values that drive the movement and identifies agencies and laws intended to safeguard consumers. Expert contributors discuss key current issues as well as those likely to arise in the future. Vignettes and case studies are used throughout and various, sometimes contrasting, viewpoints are shared to help readers better understand the content. Related topics are easily discovered through a see also list and additional readings are provided at the end of each entry.

Language Policy, Ideology and Educational Practices in a Globalised World Delombera Negga, Monika Szirmai, Daniel Chan, 2017 The challenges posed by globalization for languages, policies and education form the basis of this collection of selected, doubly blind, peer reviewed articles which have been put together following the 2014 PLIDAM conference on Policies and Ideologies in Language Teaching. Actors and discourses. The chapters collected in this volume revolve around the topic of globalization which we understand to be a blend of ideas covered by at least four meanings: 1) internationalization in reference to the growing interdependence and transactions between countries; 2) liberalization which has to do with the forming of an open and borderless world economy; 3) universalization of certain phenomena around the world; and 4) westernization with an emphasis on the influence of Western values, gender equality, freedom of speech and other ideas inspired by the West over the rest of the world. The four broad themes that the chapters are organised into are: I) Policies in Language Teaching and Learning; II) Language Policy, Ideology and Minority Languages; III) Language Teaching and Learning across Cultures; IV) Language Teaching and Learning with Technology. Contributing to the knowledge, discussion and debate about the impact that globalization has had on languages, policies and education in a wide variety of contexts, we hope that this book will be useful and informative to language researchers, policy makers and anyone with an interest in the intersecting field between languages, policies and education.
