Envy A Theory Of Social Behaviour:

Envy Helmut Schoeck,1969 Envy was first published in German in 1966 then in an English translation in 1970 This classic study is one of the few books to explore extensively the many facets of envy a drive which lies at the core of man s life as a social being Ranging widely over literature philosophy psychology and the social sciences Professor Schoeck a distinguished sociologist and anthropologist elucidates both the constructive and destructive consequences of envy in social life Perhaps most importantly he demonstrates that not only the impetus toward a totalitarian regime but also the egalitarian impulse in democratic societies are alike in being rooted in envy Envy Helmut Schoeck,Michael Glenny,Betty Ross,1969

Envy Helmut Schoeck,1969 *The Ambivalence of Scarcity and Other Essays* Paul Dumouchel,2014-10-01 First published in French in 1979 The Ambivalence of Scarcity was a groundbreaking work on mimetic theory Now expanded upon with new specially written and never before published conference texts and essays this revised edition explores Ren Girard s philosophy in three sections economy and economics mimetic theory and violence and politics in modern societies The first section argues that though mimetic theory is in many ways critical of modern economic theory this criticism can contribute to the enrichment of economic thinking The second section explores the issues of nonviolence and misrecognition m connaissance which have been at the center of many discussions of Girard s work The final section proposes mimetic analyses of the violence typical of modern societies from high school bullying to genocide and terrorist attacks Politics Dumouchel argues is a violent means of protecting us from our own violent tendencies and it can at times become the source of the very savagery from which it seeks to protect us The book s conclusion analyzes the relationship between ethics and economics opening new avenues of research and inviting further exploration Dumouchel s introduction reflects on the importance of Ren Girard s work in relation to ongoing research especially in social sciences and philosophy **Emotions, Everyday Life and Sociology** Michael Hviid Jacobsen,2018-07-11 This volume explores the emotions that are intricately woven into the texture of everyday life and experience A contribution to the literature on the sociology of emotions it focuses on the role of emotions as being integral to daily life broadening our understanding by examining both core emotions and those that are often overlooked or omitted from more conventional studies Bringing together theoretical and empirical studies from scholars across a range of subjects including sociology psychology cultural studies history politics and cognitive science this international collection centres on the everyday ness of emotional experience **Morality and the Regulation of Social Behavior** Naomi Ellemers,2017-07-14 Morality indicates what is the right and what is the wrong way to behave It is one of the most popular areas of research in contemporary social psychology driven in part by recent political economic crises and the behavioral patterns they exposed In the past work on morality tended to highlight individual concerns and moral principles but more recently researchers have started to address the group context of moral behavior In Morality and the Regulation of Social Behavior Groups as Moral Anchors Naomi Ellemers builds on her extensive research experience to

draw together a wide range of insights and findings on morality She offers an essential integrative summary of the social functions of moral phenomena examines how social groups contribute to moral values and explains how groups act as moral anchors Her analysis suggests that intragroup dynamics and the desire to establish a distinct group identity are highly relevant to understanding the implications of morality for the regulation of individual behavior Yet this group level context has not been systematically taken into account in research on morality nor is it used as a matter of course to inform attempts to influence moral behavior Building on social identity and self categorization principles this unique book explicitly considers social groups as an important source of moral values and examines how this impacts on individual decision making as well as collective behaviors and relations between groups in society Throughout the book Ellemers presents results from her own research to elucidate how social behavior is affected by moral concerns In doing this she highlights how such insights advance our understanding of moral behavior and moral judgments for of people who live together in communities and work together in organizations Morality and the Regulation of Social Behavior is essential reading for academics and students in social psychology and related disciplines and is an invaluable resource for practitioners interested in understanding moral behavior

Journal of Economic Behavior & Organization ,1994 **IJTM** ,1988 **De Gids** ,1988 The Spectator ,1873 A weekly review of politics literature theology and art **Humiliation** William Ian Miller,1993 A brilliant sometimes unsettling look at how ancient codes of honor figure in the social discomforts of everyday life **Hobart Paper** ,1982

Choice Richard K. Gardner,Phyllis Grumm,1976 Telos ,1999 Chalcedon Report ,1995 The Tyranny of Malice Joseph H. Berke,1989-10 Book World ,1970 **Dictionary of Literary Themes and Motifs** Jean-Charles

Seigneuret,1988 This index is a veritable who's who of the greats of Western literature The Board recommends it for every collection whose users conduct analytical studies of literature Reference Books Bulletin The powerful hold that literature exercises is based primarily on recognition the reader's ability to identify with others through shared human concerns that transcend time and cultural boundaries These universal themes and how they have been treated in literature from the classical period to the present are the subject of the critical essays comprising this volume A fascinating resource for students and general readers and an essential research tool for scholars in literature it is the first thematic reference on this scale to be published in English The dictionary consists of 143 essays contributed by 98 specialists in world literature Topics covered include themes relating to adventure family life the supernatural eroticism status humor idealism terror and many other categories of human experience Each entry begins with a definition and a sketch on the origin and historical background of the literary theme The topical essay discusses the significance and occurrence of the theme in world literature and supplies information on geographical area genre style and chronology Entries conclude with a selected bibliography of scholarship in the area A cross index to themes and motifs will enable the reader to find information on secondary or related topics Convenient to use and presented in a standardized format this major new reference will be an important acquisition

for libraries with collections in English American and world literature

Handbook of Mental Control Daniel M.

Wegner, James W. Pennebaker, 1993 For the first time this volume brings together the research and theories of psychologists whose work explores the processes and strategies that are involved when people attempt to control their own thoughts moods and behavior It covers the multiple dimensions of mental control its causes consequences and components and draws on current research within social personality cognitive developmental and clinical psychology For professionals in the field of behavior analysis *Mainstream* ,1990
