### **Notes on**

**Some of the Symbols Found on the Punch-marked Coins of Hindustan** William Theobald,1890 *Way Metaphors and Way Topics in Isaiah 40-55* Øystein Lund,2007 Øystein Lund gives a new approach to texts in Isaiah 40-55 that deal with ways and desert transformation Earlier exegesis has mainly read these texts in a literal way In recent years exegetes have pointed out that the so called exodus texts should rather be interpreted metaphorically The author supports this and accordingly seeks to continue this discourse by systematizing intensifying and deepening the argumentation for a metaphorical reading He argues that most of the way texts in Isaiah 40-55 are interrelated and gradually contribute to explore questions regarding the way situation of the people The way theme appears in the prologue and in 40:27 a problem approach is established when the people is addressed How can you say O Jacob and speak O Israel My way is hidden from the LORD and my right passes by my God Several subsequent way texts are related to this text and together these draw a coherent picture in which the problematic way situation of the people in the past and present is transformed JHWH

establishes new ways in which he leads his people through their difficult landscape Øystein Lund argues that such a coherent reading of the way texts gives good meaning which is consistent with the over all message of Isaiah 40-55 *Life Forms and Meaning Structure* Alfred Schutz,2013-10-08 This volume contains a translation of four early manuscripts by Alfred Schutz unpublished at the time written between 1924 and 1928 The publication of these four essays adds much to our knowledge and appreciation of the wide range of Schutz's phenomenological and sociological interests Originally published in 1987 The essays consist of a challenging presentation of a phenomenology of cognition and a treatment of Bergson's conceptions of images duration space time and memory a discussion of the meanings connected with the grammatical forms of language in general a consideration of the relation between meaning contents and literary forms in poetry literary prose narration and dramatic presentation and an examination of resemblances and differences in the inner forms and characteristics of the major theatrical art forms

*Symbols* comte Eugène Goblet d'Alviella,1894    **The Four Ways to Construct Narratives on Origins** Pascal Nouvel,2021-01-05 The book proposes an originology an investigation into the discourses on origins This leads to the identification of four different types of discourses on origins the mythical discourses biblical Genesis or Hesiod's Theogony for example the rational discourses which either delve deeper or on the contrary attempt to disqualify the question of origins the scientific discourses of the Universe of the Earth of life of man as seen by the sciences and finally the phenomenological discourses which since Husserl propose a completely new way of entering into the question of origins The various ways in which one can talk about origins without exclusivity and without giving preference to any of these discourses are examined here The book shows that each of these discourses has a singular structure In order to this it defines ascending and descending types of discourse and demonstrates that scientific discourses are ascending mythical ones are descending rational ones are both ascending and descending and finally phenomenological ones are neither ascending nor descending It also shows that scientific discourses on origins did not themselves originate at the time of the scientific revolution but much later in the 19th century with Darwin It is biology that will pave the way to physics when it turns to discourses on origins not the other way around    Theology of the Westminster Symbols Edward Dafydd Morris,1900    The Night of the Gods John O'Neill,1893    An Inquiry Into the Usage of Baptizo and the Nature of Johannic Baptism James Wilkinson Dale,1871
