The Symbolist Movement in the Literature of European Languages Anna Balakian, 1984-01-01 Edited by Anna Balakian this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages The scope of these analyses which explore Latin America Scandinavia Russia Poland Hungary Serbia Czechoslovakia and Bulgaria as well as West European literatures continues to make the volume a valuable reference today As Ren Wellek suggests in his historiographic contribution the fifty one contributors not only make us think afresh about individual authors who are giants but also draw us to reassess schools and movements in their local as well as international contexts Reviewers comment that this copious and intelligently structured anthology divided into eight parts traces the conceptual bases and emergence of an international Symbolist movement showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends Several chapters deal with the relationships between literature and the other arts pointing to Symbolism at work in painting music and theatre Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words The volume is a major contribution to the most significant exponents and essential themes of Symbolism The theoretical historical and typological sections of the volume help explain why the impact of this important movement of the fin de si cle is still felt today

 Neginsky, 2010-08-11 The notion of the symbol is at the root of the Symbolist movement but this symbol is different from the
 way it was used and understood in the Middle Ages and Renaissance In the Symbolist movement a symbol is not an allegory
 The Belgian writer Maurice Maeterlinck defined its essence in an article that appeared on April 24 1887 in L'Art moderne He
 wrote that the notion of a symbol in the Symbolist movement is the opposite of the notion of the symbol in classical usage
 instead of going from the abstract to the concrete Venus incarnated in the statue represents love it goes from the concrete to
 the abstract from what is seen heard felt tasted and sensed to the evocation of the idea This volume attempts to give a
 glimpse into the power of the Symbolist movement and the nature of its fundamental and interdisciplinary role in the
 evolution of art and literature of the twentieth century It records the studies of a group of scholars who met and discussed
 these topics together for the first time in 2009 While illuminating the specificity of Symbolism in art architecture and
 literature in different European countries these articles also demonstrate the crucial role of French Symbolism in the
 development of the international Symbolist movement The authors hope that an expanding group a society of Art Literature
 and Music in Symbolism and Decadence ALMSD born out of the first meeting will continue to further this discussion at future
 conferences and in the printed conference proceedings **The Saturday Review of Politics, Literature, Science and Art**
