Parnassus: Artist Strategies in Contemporary Art Diego Mantoan,2020-10-06 How can one become a successful artist Where should one start a career in the art world What are useful strategies to achieve recognition in the art system Such questions hoard in students' minds ever since entering art school and they probably chase every kind of art professional who is at an early career stage The Road to Parnassus tries to understand what makes a good start in today's art world who are influential players in the field and which strategies might apply The swift career ascension of Glasgow artist Douglas Gordon one of today's leading visual artists and of the broader YBA generation that rose into worldwide prominence in the 1990s

Damien Hirst and Sarah Lucas among the best known serves as a convenient case to analyse contemporary artist strategies This book takes a multidisciplinary approach spanning from traditional art history to sociology and economics pursuing the reconstruction of the field of forces in art as intended by French sociologist Pierre Bourdieu Compared to previous publications on art system dynamics such as Thompson's *The 12 Million Stuffed Shark* this book offers an enhanced understanding of the factors that allow a young artist to enter the arena of contemporary art The present research should help uncover the art system logic which appears enigmatic to non experts revealing that artists are aware they need to consider global trends beat competitors and meet the demands of dealers collectors curators and museums This book furthers existing contributions on the YBAs for example Stallabrass *High Art Lite* offering innovative conclusions on recent British art such as on the duality between London and Glasgow the gender opposition among emerging artists and the predominance of resourceful authors
