Magic Symbols of the World Pearl Binder, 1972 Magic, Power, Language, Symbol Patrick Dunn, 2008 All forms of magic are linked to language. As a magic practitioner and a linguist Patrick Dunn illuminates this fascinating relationship and offers breakthrough theories on how and why magic works. Drawing on linguistics and semiotics the study of symbols Dunn illuminates the magical use of language both theoretically and practically. He poses new theories on the mechanics of magic by analyzing the structure of ritual written signs and sigils primal language incantations across cultures Qabalah and gematria Hebrew numerology and the Enochian vocabulary. This revolutionary paradigm can help magicians understand how sigils and talismans work compose Enochian spells speak in tongues for magic create mantras work with gematria use postmodern defixios and refine their practice in countless other ways. Magic Power Language Symbol is a unique tour de force that reinterprets the very nature of magic placing it within the modern sciences of symbolism semiotics and language linguistics. Within this paradigm Dunn explains something that most other books miss a logical and scientific understanding of how and why real magic actually works.
