Lyon, 1960      **A Brief Systematic Theology of the Symbol** Joshua Mobley, 2021-11-18 How do Christians understand the Trinity How does this understanding relate to other Christian teachings In conversation with key thinkers in contemporary and classical theology particularly Henri de Lubac Karl Rahner Thomas Aquinas and Augustine this book argues that a theology of symbols can help us glimpse the mystery of the Trinity and see how this central Christian teaching corresponds to Christian understandings of creation humanity and the church A symbol is not here understood as an arbitrary sign but as a sign that mediates the presence of the symbolized Joshua Mobley examines the understanding of the Father as symbolized in the Son who is the symbol of the Father by the symbolism of the Spirit the personal agent of unity between Father and Son These trinitarian relations then structure creaturely relations to God God is symbolized in creation which is a symbol of God by participation in

the Son and the church is symbolism the union of creation with God by the power of the Spirit Mobley thus argues that a theology of symbol helps coordinate trinitarian theology with key themes in Christian dogmatics Theology of the Westminster Symbols Edward Dafydd Morris,1900 Ernst Cassirer and the Autonomy of Language Gregory S. Moss,2014-11-12 Ernst Cassirer and the Autonomy of Language examines the central arguments in Cassirer s first volume of the Philosophy of Symbolic Forms Gregory Moss demonstrates both how Cassirer defends language as an autonomous cultural form and how he borrows the concept of the concrete universal from G W F Hegel in order to develop a concept of cultural autonomy While Cassirer rejected elements of Hegel s methodology in order to preserve the autonomy of language he also found it necessary to incorporate elements of Hegel s method to save the Kantian paradigm from the pitfalls of skepticism Moss advocates for the continuing relevance of Cassirer s work on language by situating it within in the context of contemporary linguistics and contemporary philosophy This book provides a new program for investigating Cassirer s work on the other forms of cultural symbolism in his Philosophy of Symbolic Forms by showing how the autonomy of culture is one of the leading questions motivating Cassirer s philosophy of culture With a thorough comparison of Cassirer s theory of symbolism to other dominant theories from the twentieth century including Heidegger and Wittgenstein this book provides valuable insight for studies in philosophy of language semiotics epistemology psycholinguistics continental philosophy Neo Kantian philosophy and German idealism **Flight Test Comparison of Synthetic Vision Display Concepts at Dallas/Fort Worth International Airport** Louis J.
