*The Smart Estate* Jason Challender, Akponanabofa Henry Oti, 2024-02-20 **The Smart Estate** Bring your estate management methods into the future with this accessible guide Building information modeling or BIM is a catch all term for a wide array of tools and processes for creating digital representations of buildings or building components These tools have been widely embraced for use in the construction phase of projects but their potential has only begun to be realized in facility management and maintenance even though these account for 85% of costs in the life cycle of a building Organizations controlling diverse estates with multiple buildings of varying ages stand to benefit enormously from a BIM informed approach to estate management **The Smart Estate** outlines such an approach and its potential to improve facility and estate management Emphasizing practical applications it moves beyond the project delivery stage to focus on the much longer and costlier period of building operation and maintenance The result is a thorough and accessible guide to generating collaborative BIM informed methods **The Smart Estate** readers will also find Case studies and real world scenarios illustrating best practices Detailed discussion particularly suited to the needs of large scale or public sector organizations Detailed step by step guide to developing a BIM informed approach to a given asset portfolio **The Smart Estate** is ideal for professionals in construction management and facilities management as well as for advanced students and professionals in all construction related disciplines

**South African Homelands as Frontiers** Steffen Jensen, Olaf Zenker, 2018-02-02 This book explores what happened to the homelands in many ways the ultimate apartheid disgrace after the fall of apartheid The nine chapters contribute to understanding the multiple configurations that currently exist in areas formerly declared homelands or Bantustans Using the concept of frontier zones the homelands emerge as areas in which the future of the South African postcolony is being renegotiated contested and remade with hyper real intensity This is so because the many fault lines left over from apartheid its loose ends so to speak between white and black between different ethnicities between rich and poor or differentiated by gender generation and nationality between traditions and modernities or between wilderness and human habitation are particularly acute and condensed in these so called communal areas Hence the book argues that it is particularly in these settings that the postcolonial promise of liberation and freedom must face its test As such the book offers highly nuanced and richly detailed analyses that go to the heart of the diverse dilemmas of post apartheid South Africa as a whole but simultaneously also provides in condensed form an extended case study on the predicaments of African postcoloniality in general This book was originally published as a special issue of the *Journal of Southern African Studies*

**Intellectual Property Needs and Expectations of Traditional Knowledge Holders** World Intellectual Property Organization, 2001 FFM to West Africa *Conservation Agriculture for Africa* Amir H Kassam, Saidi Mkomwa, Theodor Friedrich, 2016-12-14 Tillage agriculture has led to widespread soil and ecosystem degradation globally This is especially so in Africa where traditional and modern tillage based agricultural practices have become unsustainable

due to severe disturbance and exploitation of natural resources with negative impacts on the environment and rural livelihoods In addition agriculture in Africa today faces major challenges including increased costs of production and energy the effects of climate change and the lack of an effective paradigm for sustainable intensification especially for small and medium size holdings Africa is facing a serious challenge to food security and as a continent has not advanced towards eradicating hunger In addition the population is still growing much faster than on most other continents This pressure has led to the emergence of no till conservation agriculture as a serious alternative sustainable agriculture paradigm In Africa in recent years conservation agriculture techniques and methods have spread to many countries as greater development education and research effort are directed towards its extension and uptake This book is aimed at agricultural researchers and scientists educationalists and agricultural service providers institutional leaders and policy makers working in the fields of sustainable agriculture and international development and also at agroecologists conservation scientists and those working on ecosystem services
