Ahram,2020-09-29 For much of the last half century the Middle East and North Africa MENA has seemed the outlier in global peace Today Iraq Libya Israel Palestine Yemen and Syria are not just countries but synonyms for prolonged and brutal wars But why is MENA so exceptionally violent More importantly can it change Exploring the causes and consequences of wars and conflicts in this troubled region Ariel Ahram helps readers answer these questions In Part I Ahram shows how MENA's conflicts evolved with the formation of its states Violence varied from civil wars and insurgencies to traditional interstate conflicts and affected some countries more frequently than others The strategies rulers employed to stay in power constrained how they recruited trained and equipped their armies Part II explores dynamics that trap the region in conflict oil dependence geopolitical interference and embedded identity cleavages The catastrophic wars of the 2010s reflect the

confounding effects of these traps culminating in state collapse and intervention from the US and Russia as well as regional powers like Iran Saudi Arabia and the UAE Finally Ahram considers the possibilities of peace highlighting the disjuncture between local peacebuilding and national and internationally backed mediation War and Conflict in the Middle East and North Africa will be an essential resource for students of peace and security studies and MENA politics and anyone wanting to move beyond headlines and soundbites to understand the historical and social roots of MENA's conflicts *The Foreign Policies of Middle East States* Raymond A. The Middle East, Abstracts and Index ,2001      Conflict and Post-Conflict Governance in the Middle East and Africa

Moosa A. Elayah,Laurent A. Lambert,2023-03-12 This book explores the challenges of the governance and public policy in the midst and after conflicts revolutions and civil wars in the Middle East and Africa As anywhere else the task of rebuilding peace and institutionalizing stability in countries experiencing a conflict or just emerging from it is daunting uncertain and context specific Yet focusing on the Middle East and Africa is of particular relevance as these two regions feature the highest numbers of inter and intra state conflicts on the one hand and the central states are more often contested than in the rest of world regions The first half of the book proposes different cases addressing the fundamental challenge of inclusion and cohesion as well as the recurring issue of exclusion in conflict affected situations with four different cultural and institutional settings The second half of the book offers more theoretical insights and proposed pathways to develop more inclusive and peaceful governance settings in Africa the Middle East and beyond This edited book has been designed to be a helpful contribution to the analysis of conflict and post conflict governance and peacebuilding To do so it deploys different lenses of social sciences especially public policy and international relations but also benefits from social psychology political anthropology and other disciplines that enable a more comprehensive understanding of the multifaceted complex and dynamic issues at play

**Oil, Turmoil, and Islam in the Middle East** Sheikh Rustum Ali, 1986-09-05 The turmoil and strife of the Middle East raises serious questions about the security of the world's oil supply Oil Turmoil and Islam in the Middle East is a hard hitting indictment of OPEC and OAPEC arguing that these organizations can no longer afford to impose indiscriminate price increases on the marketplace because they hurt not only themselves but oil poor Third World nations as well The author analyzes the importance of Middle Eastern oil in world politics He emphasizes that any consideration of the forces influencing development in the Middle East should take Islamic tradition into account Each chapter is organized around a current Middle Eastern problem oil politics in relation to international energy needs the ramifications of the new oil wealth and power of the Middle East the Iran Iraq War Muslim insurgency in Afghanistan the Arab Israeli conflict turmoil in Lebanon Palestinian nationalism and the Middle East as a superpower     *Recruiting for Uncle Sam* David R. Segal, 1989

Which citizens have fought America's wars Which ones should fight in the future and how should they be recruited Should military or other national service be an obligation for every citizen David Segal's probing look at the complex issues behind these questions tells us much about the changing manpower needs of our armed forces and about the evolution of civil military relations in the United States Segal analyzes the mobilization contributions and limitations of drafted reservist and volunteer forces from the early days of the republic to the present In the process he shows how Americans have come to separate the benefits of citizenship from service to their country Symptomatic of this separation is the current reliance on an all volunteer military a system that treats military service more as an occupation and opportunity for self advancement than as a civic duty and obligation Drawing on a vast interdisciplinary literature in American history sociology political science and economics Segal illuminates the ways demographics weapons technology international relations scientific management and social policies have all affected the composition of America's armed forces He also shows how the military anticipated and expanded the American welfare system and played a pivotal role in creating better opportunities for minorities and women The capabilities and performance of U S armed forces in future conflicts will depend on a thorough understanding of and informed response to the crucial manpower issues Segal discusses His thoughtful study should be required reading for military professionals and policymakers and will be of interest to anyone concerned about the future of this country's armed forces     **The Near East**, 1919
