## **State And Economic Interests:**

The State and Economic Interests Keith G. Banting, Royal Commission on the Economic Union and Development Prospects for Canada, 1986      **Advancing U.S. Economic Interests in Asia** United States. Congress. House. Committee on Foreign Affairs, 2015      **Financing Services of General Economic Interest** Erika Szyszczak, Johan Willem van de Gronden, 2014-07-08 This book examines the legacy of the 2003 ruling of the Court of Justice of the European Union in Altmark This case changed the direction of how Services of General and Economic Interest SGEI should be funded in the EU against a background of liberalisation and the need for efficiency and global competitiveness The book examines the European Commission's response to the Altmark ruling in the measures known as the Altmark Monti Kroes Package and charts the review of this package from 2009 culminating in a new package of measures known as the Almunia Package The seemingly technocratic idea of a review of the Altmark Monti Kroes Package could not have anticipated the demanding and changed economic and constitutional context of the EU in 2009 It is in this light that the authors in this book explore in great detail the different components of the new Almunia Package of measures introduced in 2011 2012 offering a critical review and highlighting where the future direction of the regulation of SGEI may lead as the EU struggles in an economic climate of austerity to balance a new constitutional dimension of a highly competitive social market economy with a modernisation agenda for the single market      **The Origins of War** Matthew A. Shadle, 2011-03-10 Debate rages within the Catholic Church about the ethics of war and peace but the simple question of why wars begin is too often neglected Catholics' assumptions about the causes of conflict are almost always drawn uncritically from international relations theory a field dominated by liberalism realism and Marxism which is not always consistent with Catholic theology In *The Origins of War* Matthew A Shadle examines several sources to better understand why war happens His retrieval of biblical literature and the teachings of figures from church tradition sets the course for the book Shadle then explores the growing awareness of historical consciousness within the Catholic tradition the way beliefs and actions are shaped by time place and culture He examines the work of contemporary Catholic thinkers like Pope John Paul II Jacques Maritain John Courtney Murray Dorothy Day Brian Hehir and George Weigel In the constructive part of the book Shadle analyzes the movement within international relations theory known as constructivism which proposes that war is largely governed by a set of socially constructed and cultural influences Constructivism Shadle claims presents a way of interpreting international politics that is highly amenable to a Catholic worldview and can provide a new direction for the Christian vocation of peacemaking      **The Gulf Wars and the United States** Orrin Schwab, 2008-11-30 Schwab's work is five part analysis of US policy and strategy in the Persian Gulf from 1990 2003 He begins the work by analyzing the prominence of the Persian Gulf in US global strategic thinking during the last decade of the Cold War By that time gulf oil had secured a paramount place in the minds of the Reagan and Bush administrations Part two dissects the relationship that individuals and regional governments in the Persian Gulf shared

with the US Here Schwab also examines US perceptions of those entities and demonstrates how they helped shape the policies of the US and define the status of those nations in the eyes of US policymakers When Saddam Hussein invaded Kuwait in 1990 the paradigm shifted dramatically Part three examines US decision making in the period immediately after that invasion Schwab demonstrates that while forging a broad coalition to turn back Iraq was a significant diplomatic achievement the international determination that defined the conflict in 1990 1991 eroded and gave way to a cumbersome policy of containment That policy ultimately resulted in the dissolution of the coalition forged by the first Bush administration and burdened his successors as they struggled to achieve the longstanding goal of creating stability throughout the region Part four explores the efforts of the Clinton and second Bush administrations in the Gulf Saddam was one of the primary concerns of the Clinton administration but so too were al Qaeda North Korea China and especially Yugoslavia Indeed his was the first administration to truly attempt to deal with these kinds of problems in a post Cold War world Despite their differences there was a tremendous amount of continuity in the policies pursued by Clinton and George W Bush September 11 changed that however as Schwab chronicles in part five In that section he explores how the current administration s adoption of a more proactive strategy of retaliation and preventative war has given rise to a new national security regime increasingly designed to fight asymmetric war while eliminating perceived threats to our national security and interests Schwab s work is five part analysis of US policy and strategy in the Persian Gulf from 1990 2003 He begins the work by analyzing the prominence of the Persian Gulf in US global strategic thinking during the last decade of the Cold War By that time gulf oil had secured a paramount place in the minds of the Reagan and Bush administrations Part two dissects the relationship that individuals and regional governments in the Persian Gulf shared with the US Here Schwab also examines US perceptions of those entities and demonstrates how they helped shape US policy and define the status of those nations in the eyes of US policymakers When Saddam Hussein invaded Kuwait in 1990 the paradigm shifted dramatically Part three examines US decision making in the period immediately after that invasion Schwab demonstrates that while forging a broad coalition to turn back Iraq was a significant diplomatic achievement the international determination that defined the conflict in 1990 1991 eroded and gave way to a cumbersome policy of containment That policy ultimately resulted in the dissolution of the coalition forged by the first Bush administration and burdened his successors as they struggled to achieve the longstanding goal of creating stability throughout the region Part four explores the efforts of the Clinton and second Bush administrations in the Gulf Saddam was one of the primary concerns of the Clinton administration but so too were al Qaeda North Korea China and especially Yugoslavia Indeed his was the first administration to truly attempt to deal with these kinds of problems in a post Cold War world Despite their differences there was a tremendous amount of continuity in the policies pursued by Clinton and George W Bush September 11 changed that however as Schwab chronicles in part five In that section he explores how the current administration s adoption of a more proactive strategy of retaliation and preventative war has
