Steam Trains:

Steam Trains and Jigsaw Puzzles David Platt, 2007-07-18 Steam Trains and Jigsaw Puzzles strikes most people as an intriguing title. The origin is simple; however, my trainspotting youth has been synchronized with a later interest in jigsaw puzzles. The result is expensive. I have a collection of over 250 jigsaws depicting British steam railways. The conclusion is impossible: there are over 500 steam railway jigsaw puzzles to collect, and they are being supplemented annually. The Liverpool Manchester Railway marked the arrival of the true passenger railway service in 1830 and presented jigsaw manufacturers with another subject on which to focus. Prior to this date, the jigsaw experience started by John Spilsbury in c1760 was restricted to subjects such as religion, geography, history, monarchs, the alphabet, and art. Many characteristics combine to form the basis of nostalgic images buried indelibly in the minds of people who travelled in the steam railway age. Manufacturers have not been slow to tap into this nostalgia and produce jigsaws aimed at stirring those memories and inviting people to reflect on past experiences, good, bad, or indifferent. Chad Valley, Victory, Good Companion, Falcon, Waddingtons, and Arrow are just a few manufacturers who produced steam railway jigsaws in the past. Most of these companies are now a distant memory, while others are in foreign ownership. Equally famous names such as Wentworth, Ravensburger, Germany House of Puzzles, Gibsons, JR Puzzles, and King Puzzles, Holland, continue the manufacturing tradition. Output is generally superb, thanks to the efforts of fine railway artists such as Terence Cuneo, George Heiron, T. E. North, Don Breckon, John Austin, Barry Freeman, and Malcolm Root. The book is aimed at anyone with an interest in jigsaw puzzles and at those enthusiasts and aficionados who refuse to allow those evocative memories of the Golden Age of Steam to die. Steam Trains Colin Maggs, 2014-09-15 The history of steam in Britain from the Rocket in 1829 through to the last main line locomotive in the 1960s. **Riding Yorkshire's Final Steam Trains** Keith Widdowson, 2015-02-02 Keith Widdowson visited the North Eastern Region of British Railways on over forty occasions during the final eighteen months of steam-powered passenger services. With the odd exceptions, usually for railtours, most of the locomotives were neglected, run down, filthy, prone to failure, and often only kept their wheels turning courtesy of the skills of the crew coaxing them along with loving care. Far from the scenic delights so often justifiably portrayed of the Yorkshire countryside, the ever-dwindling numbers became corralled within the industrialized heartland of Bradford, Leeds, Wakefield, and Normanton. Here Widdowson recalls that bygone era, leading an almost nomadic nocturnal existence on his self-imposed mission of stalking the endangered Iron Horses in one of their final habitats. He was often far from alone in his quest. The Haulage bashing fraternity comprised of like-minded enthusiasts from throughout Britain often congregated, lemming-like, on the one coach early morning mail trains, the Summer Saturday holidaymaker trains, or the Bradford portions, indeed any passenger service with a steam locomotive at its front. From the many disappointments of thwarted possibilities to the euphoric joy of unexpected catches, together with over 130 contemporary images, *Riding Yorkshire's Final Steam Trains* is a compelling snapshot of the race against time at the end

of the golden age of steam *Classic Steam Trains* Colin Garratt, 2003 Celebrating 200 years of the steam engine's timeless beauty and magic this illustrated book shows the rich and fascinating diversity of steam locomotives from around the world Discover unconventional designs such as the articulated engines of Africa and the Industrial Workhorses of the sugar plantations of India A key player in the industrial revolution the steam locomotive is one of the most animated of all man's creations changing the face of the world and laying the foundations of the technological age in which we now live Steam Trains James P.
