The Christians of Lebanon David D. Grafton, 2003 With the contemporary discussions of political Islam how do minority Muslim communities approach the traditional concept that Islam is both religion and politics How do Muslim minorities address the issues of Islamic social organization when they are either a minority or living within a pluralistic state Do Muslims who are integrated within a pluralistic state approach the traditional aspects of Islamic social political organization in a manner different than those Muslims who make up a majority This study examines the Islamic categories of Christians under Islamic law and compares them with the status of Christians within Lebanon David Grafton reviews the opinions of four Lebanese Muslim scholars two Sunni and two Shi'a regarding Christian political rights during the Lebanese Civil War In such a diverse and complicated social context as Lebanon who do these scholars respond to the position of the Christian community which claims political supremacy by maintaining its hold on the presidency The debate on political Islam has to this point neglected to look seriously at Muslim communities in pluralistic contexts and how such contexts affect their opinions of traditional social political organization This text attempts steps to reverse this trend Bloomsbury Publishing

Muslim-Christian Relations in Damascus amid the 1860 Riot Rana Abu-Mounes, 2022-01-31 On 9 July 1860 CE an outbreak of violence in the inner city Christian quarter of Damascus created shock waves locally and internationally This

book provides a step by step presentation of events and issues to assess the true role of all the players and shapers of events. It critically examines the internal and external politico socio economic factors involved and argues that economic interests rather than religious fanaticism were the main causes for the riot of 1860. Furthermore it argues that the riot was not a sudden eruption but rather a planned and organised affair.

Family Law in Syria Esther van Eijk, 2016-05-18 The current Syrian crisis has its roots in the sectarian nature of the country's multi religious society. Since Ottoman times the different religious communities have enjoyed the right to regulate and administer their own family relations. Matters of personal status including marriage, divorce, child custody and inheritance continue to be managed by a variety of religious laws and courts operating simultaneously within the legal system of the state. However this complex system of competing jurisdictions has also affected inter communal relations and has been used to deepen communal divides. Esther van Eijk discusses socio legal practices in Syria by focusing on three courts: a shariyya, a Catholic court and a Greek Orthodox court. While the plurality of Syrian family law is clear, she shows how irrespective of religious affiliation it is nevertheless characterised by the prevalence of shared cultural or patriarchal views and norms on marital relations, family and gender. Based on extensive fieldwork, *Family Law in Syria* offers a detailed analysis of a country that has in recent years been inaccessible to researchers. The book is a vital contribution to the growing literature on personal status laws in the Middle East and sheds light on the historical socio political and religious complexities and fault lines that mark contemporary Syria.

Lebanese Political Parties Christian Thueselt, 2021-05-19 This book examines Lebanese political parties and their encounters with modernity. Taking three mainly Christian parties as an example, the book refutes the idea of Middle Eastern parties being backwards or antiquated. By combining historical and anthropological perspectives, it is shown that these parties stand for normativities of modernity. Lebanese as well as Middle Eastern parties in general have a rather poor reputation; they are considered family based, ideologically meaningless, tailored solely to their leadership and non modern. Contrastingly, this book claims that the concept of the real party corresponds to an encounter with modernity and that these parties, although dysfunctional in parts, are better than their reputation. Most importantly, Lebanese parties are taking the nation state as their central reference point as they recognise it as the legitimate form of societal organization. The volume claims that important constituents of modernity such as the individual, the nation, secularity, progress and representing the people, *demos*, serve for the parties in question as resources of utopian elements informing much of these parties' identities. Bringing Lebanese political parties into a global debate on modernity, the book tackles the notion of parties of the Middle East being non modern. It will be of interest to scholars researching political science, political history and the Middle East.

The Young Ottomans Nazan Cicek, 2010-10-30 The Eastern Question, as it was termed by the European Powers in the nineteenth century, was a debate primarily concerned with the issue of what to do with the Turk. The Ottoman Empire had become known as the sick man of

Europe following its gradual decline since the eighteenth century and its demise would be highly problematic for the crowned heads of Europe This unique book focuses on the intellectual and political dynamics of the first Ottoman political opposition in the modern sense the so called Young Ottomans In the process it narrates an alternative version of the Eastern Question as experienced and told by its Eastern observers and critics Nazan A icek shows how an important section of the newly rising semi autonomous Ottoman Muslim Turkish intelligentsia in the second half of the nineteenth century effectively answered the alternative question of what to do with the West *The Middle East & South Asia Folklore Bulletin* ,2004

Long,Bernard Reich,1995-08-03 Rapid social economic and political change is endemic to the Middle East and is often more revolutionary than evolutionary in nature In many ways the entire political landscape of the Middle East has been transformed in the past decade in the realm of both international relations and domestic politics The collapse of the Soviet Union the end of the cold war and the Iraqi invasion of Kuwait have all had a profound effect on relations among states within the region and between those states and countries outside the region In this revised edition Long and Reich provide comprehensive and up to date analyses of many critical contemporary events and issues The contributors explain how Desert Storm isolated Iraq and brought Syria back into the mainstream of Arab politics contributing to the revival of the Arab Israeli peace process They also show how the return of a Labor government in Israel has allowed the peace process to go forward Evaluating the economic costs of the Kuwait war and the continuing oil glut the authors find that resulting changes in the domestic economies of the oil producing states have created additional pressures for social and political change The most profound change in government and politics however is the rise of Islam as the idiom of political discourse among moderates as well as extremists **Bibliographic Index** ,2008 The Government And Politics Of The Middle East And North Africa, Fourth Edition David Long,Bernard Reich,2002-04-08 Rapid social economic and political change is endemic to the Middle East and is often more revolutionary than evolutionary in nature In many ways the entire political landscape of the Middle East has been transformed in the past decade in the realm of both international relations and domestic politics The collapse of the Soviet Union the end of the cold war and the Iraqi invasion of Kuwait have all had a profound effect on relations among states within the region and between those states and countries outside the region In this revised edition Long and Reich provide comprehensive and up to date analyses of many critical contemporary events and issues The contributors explain how Desert Storm isolated Iraq and brought Syria back into the mainstream of Arab politics contributing to the revival of the Arab Israeli peace process They also show how the return of a Labor government in Israel has allowed the peace process to go forward Evaluating the economic costs of the Kuwait war and the continuing oil glut the

This collection of essays by some of the world's leading authorities on Islamic social history focuses on the juridical and cultural oppression of non Muslims in Islamic societies The authors of these in depth but accessible articles explode the widely diffused myth promulgated by Muslim advocacy groups of a largely tolerant pluralistic Islam In fact the contributors lay bare the oppressive legal superstructure that has treated non Muslims in Muslim societies as oppressed and humiliated tributaries and they show the devastating effects of these discriminatory attitudes and practices in both past and contemporary global conflicts Besides original articles primary source documents here presented also elucidate how the legally mandated subjugation of non Muslims under Islamic law stems from the Muslim concept of jihad the spread of Islam through conquest Historically the Arab Muslim conquerors overran vast territories containing diverse non Muslim populations Many of these conquered people surrendered to Muslim domination under a special treaty called dhimma in Arabic As such these non Muslim indigenous populations mainly Christians and Jews were then classified under Islamic law as dhimmis meaning protected Although protected status may sound benign this classification in fact referred to protection from the resumption of the jihad against non Muslims pending their adherence to a system of legal and financial oppression as well as social isolation The authors maintain that underlying this religious caste system is a culturally ingrained contempt for outsiders that still characterizes much of the Islamic world today and is a primary impetus for jihad terrorism Also discussed is the poll tax Arabic jizya levied on non Muslims the Islamic critique of the Universal Declaration of Human Rights the use of jihad ideology by twentieth century radical Muslim theorists and other provocative topics usually ignored by Muslim apologists This hard hitting and absorbing critique of Islamic teachings and practices regarding non Muslim minorities exposes a significant human rights scandal that rarely receives any mention either in academic circles or in the mainstream press **The Middle East**, 2005 Presents an introduction to the Middle East and discusses issues of economic political and cultural significance including the Arab Israeli conflict U S policy the Persian Gulf oil and Islam with profiles of twelve Middle Eastern countries chronology's of events in the region from 1900 to 2004
