The Civil Code Of The Rubian Federation:

Cornell International Law Journal ,1997 *The Degradation of the International Legal Order?* Bill

Bowring,2008-02-19 Using critical philosophy and political methodology this sophisticated and incisive book provides a detailed diagnosis of the present impasse of international law and relations particularly since the Iraq invasion and occupation **The Law of Kinship** Camille Robcis,2013-04-05 In France as elsewhere in recent years legislative debates

over single parent households same sex unions new reproductive technologies transsexuality and other challenges to long held assumptions about the structure of family and kinship relations have been deeply divisive What strikes many as uniquely French however is the extent to which many of these discussions whether in legislative chambers courtrooms or the mass media have been conducted in the frequently abstract vocabularies of anthropology and psychoanalysis In this highly original book Camille Robcis seeks to explain why and how academic discourses on kinship have intersected and overlapped with political debates on the family and on the nature of French republicanism itself She focuses on the theories of Claude L vi Strauss and Jacques Lacan both of whom highlighted the interdependence of the sexual and the social by positing a direct correlation between kinship and socialization Robcis traces how their ideas gained recognition not only from French social scientists but also from legislators and politicians who relied on some of the most obscure and difficult concepts of structuralism to enact a series of laws concerning the family L vi Strauss and Lacan constructed the heterosexual family as a universal trope for social and psychic integration and this understanding of the family at the root of intersubjectivity coincided with the role that the family has played in modern French law and public policy The Law of Kinship contributes to larger conversations about the particularities of French political culture the nature of sexual difference and the problem of reading and interpretation in intellectual history **Islamic Family Law in a Changing World** ‘Abd Allāh Aḥmad

Na’īm,2002-08 In *Islamic Family Law in a Changing World* Abdullahi A An Na im explores the practice of the Shari a commonly known as Islamic Family Law An Na im shows that the practical application of Shari a principles is often modified by theological differences of interpretation a country s particular customary practices and state policy and law Classical Liberalism and Civil Society Charles K. Rowley,1997 This impressive book brings together four essays which along with an insightful introduction from Charles Rowley provide a robust defence of the concept of classical liberalism in modern civil society In the first essay Douglas Rasmussen and Douglas Uyl discuss the basic approaches and principles of liberalism in the post modern age and show how a moral philosophy can serve to support a political philosophy They supply a clear fundamental defence of liberalism in an era which has become sceptical of its doctrines This is followed by Peter Ordeshook s authoritative analysis of the foundations of democracy in relation to the demise of communist ideology particularly in the former Soviet Union Paul Rubin then examines from a libertarian perspective the differing methods and degrees of success of adapting contract law in Russia the Czech Republic Hungary and Poland in the wake of political change Finally Mwangi S

Kimenyi provides an original study of highly centralized unitary systems of government and the breakdown of civil society in Sub Saharan Africa He argues persuasively that institutional reform involving decentralization and federalism can better accommodate ethnic diversity in the area With contributions from some of the most eminent scholars in the field Classical Liberalism and Civil Society provides a rigorous justification of classical liberal polity **Venture**, 1972 *Annual Survey of African Law* Cb Eugene Cotran, Neville N. Rubin, 2021-06-23 This is the first in a series of annual volumes which aim to review the principal legal developments that take place in the countries of sub Saharan Africa This series is intended to enable those who have an academic or professional interest in African law to keep abreast of changes in the various branches of the different legal systems of Africa **The British National Bibliography** Arthur James Wells, 1998 *Promises, Promises* Paul H. Rubin, 1997 *Promises* *Promises* examines from a libertarian perspective the differing methods and levels of success of adapting contract law in the Czech Republic Hungary Poland and especially Russia in the wake of political change The author analyses the roles of government power and policy opportunism and private regulatory mechanisms within the pattern of change *The Oxford Handbook of Comparative Law* Mathias Reimann, Reinhard Zimmermann, 2019-03-26 This fully revised and updated second edition of *The Oxford Handbook of Comparative Law* provides a wide ranging and diverse critical survey of comparative law at the beginning of the twenty first century It summarizes and evaluates a discipline that is time honoured but not easily understood in all its dimensions In the current era of globalization this discipline is more relevant than ever both on the academic and on the practical level The Handbook is divided into three main sections Section I surveys how comparative law has developed and where it stands today in various parts of the world This includes not only traditional model jurisdictions such as France Germany and the United States but also other regions like Eastern Europe East Asia and Latin America Section II then discusses the major approaches to comparative law its methods goals and its relationship with other fields such as legal history economics and linguistics Finally section III deals with the status of comparative studies in over a dozen subject matter areas including the major categories of private economic public and criminal law The Handbook contains forty eight chapters written by experts from around the world The aim of each chapter is to provide an accessible original and critical account of the current state of comparative law in its respective area which will help to shape the agenda in the years to come Each chapter also includes a short bibliography referencing the definitive works in the field *West Africa*, 1972 **Staging Nationalism** Kiki Gounaridou, 2005-05-05 When a nation wants to reconnect with a sense of national identity its cultural celebrations including its theatre are often tinged with nostalgia for a cultural high point in its history Leaders often try to create a neo classical cultural identity Artificially returning to an imagined pinnacle however can fail to take into account new aspects of national identity such as the infusion of other cultures and languages This collection of essays discusses the relationship between political power and the construction or subversion of cultural identity The collection takes a wide historical perspective from distinct periods and cultures from all

over the world A few of the topics examined include how theatre in 18th century Poland tried to reconstitute the identity of an imagined classical heritage clung to by Polish nobles how festival practices during the French Revolution tried to give meaning to recent events and rein in anxiety about split loyalties how Athenian prologues cemented early American culture how romantic admiration of peasant culture spread from Germany throughout Europe how Greek tragedy in postwar Japan reflects the conflict of Japan's imposed identity as a Western style democracy with its prewar identity as a samurai nation and how Mexican archeological performance links the indigenous past with a post revolutionary identity as a mixed race country

The Civil Law System Arthur Taylor Von Mehren, James Gordley, 1977 **Congressional Record** United States. Martindale-Hubbell International Law Directory, 2003 **Canadiana**, 1984 *The Parker School Journal of East European Law*, 1994 **Comparative Constitutional Theory** Gary Jacobsohn, Miguel Schor, 2018-02-23 The need for innovative thinking about alternative constitutional experiences is evident and readers of Comparative Constitutional Theory will find in its pages a compendium of original theory driven essays The authors use a variety of theoretical perspectives to explore the diversity of global constitutional experience in a post 1989 world prominently marked by momentous transitions from authoritarianism to democracy by multiple constitutional revolutions and devolutions by the increased penetration of international law into national jurisdictions and by the enhancement of supra national institutions of governance **Policy Issues in Insurance Reforming the Insurance Market in Russia** OECD, 2005-12-01 This book presents an in depth historical and analytical review of the reform process in the Russian insurance sector
