The Civil Rights Society The Social Construction Of Victims:

The Civil Rights Society Kristin Bumiller,1992-09 Grounded in a wide reading of social theory and supported with interview data The Civil Rights Society reveals an important dimension of the failure of legal action to address many of the most persistent forms of racial and sexual oppression **The Civil Rights Society** Kristin Bumiller,1988 Examining the role of law in promoting social change Bumiller contends that antidiscrimination law has perpetuated victimization She describes why the social identity of victims reinforces their sense of powerlessness and reveals failure of legal action to address sexual and racial oppression The Cult of True Victimhood Alyson Manda Cole,2007 Demonstrates how the campaign against victim politics and the victim mentality has profoundly altered Americans understanding of victimhood and investigates the consequences of this change in politics law culture and the war against terror **The War on Sex** David M. Halperin,Trevor Hoppe,2017-03-09 The past fifty years are conventionally understood to have witnessed an uninterrupted expansion of sexual rights and liberties in the United States This state of the art collection tells a different story while progress has been made in marriage equality reproductive rights access to birth control and other areas government and civil society are waging a war on stigmatized sex by means of law surveillance and social control The contributors document the history and operation of sex offender registries and the criminalization of HIV as well as highly punitive measures against sex work that do more to harm women than to combat human trafficking They reveal that sex crimes are punished more harshly than other crimes while new legal and administrative regulations drastically restrict who is permitted to have sex By examining how the ever intensifying war on sex affects both privileged and marginalized communities the essays collected here show why sexual liberation is indispensable to social justice and human rights Contributors Alexis Agathocleous Elizabeth Bernstein J Wallace Borchert Mary Anne Case Owen Daniel McCarter Scott De Orio David M Halperin Amber Hollibaugh Trevor Hoppe Hans Tao Ming Huang Regina Kunzel Roger N Lancaster Judith Levine Laura Mansnerus Erica R Meiners R Noll Melissa Petro Carol Queen Penelope Saunders Sean Strub Maurice Tomlinson Gregory Tomso

Understanding Diaspora Development Melissa Phillips,Louise Olliff,2022-05-30 This book brings together new research that engages with the concept of diaspora from a uniquely Australian perspective and provides a timely contribution to the development of research informed policy both in the Australian context and more broadly It builds on the understanding of the complex drivers and domains of diaspora transnationalism and its implications for countries and people striving to develop human capabilities in a globally interconnected but also fractured world The chapters showcase a wide range of diaspora experiences from culturally and linguistically diverse communities in Australia This work demonstrates the usefulness of diaspora as a concept to explore the experiences of migrant and refugee communities in Australia and the Pacific and further understanding on the peacebuilding conflict economic humanitarian and political engagements of diaspora communities globally The insights and findings from the breadth of research featured shed light on broader debates

about diasporas migration and development and transnationalism Human Dignity Austin Sarat,2022-07-12 This special issue investigates the meaning of justice and dignity and how they have changed over time What do we mean by human dignity How do we understand and interpret that meaning How has it evolved *Research Handbook on Gender, Sexuality and the Law* Chris Ashford,Alexander Maine,2020-03-28 This innovative and thought provoking Research Handbook explores not only current debates in the area of gender sexuality and the law but also points the way for future socio legal research and scholarship It presents wide ranging insights and debates from across the globe including Africa Asia Eastern Europe and Australia with contributions from leading scholars and activists alongside exciting emergent voices Making All the Difference Martha Minow,1990 Martha Minow here takes a hard look at the way our legal system functions She confronts a variety of dilemmas of difference resulting from contradictory legal strategies strategies that attempt to correct inequalities by sometimes recognizing and sometimes ignoring differences Minow argues in effect for a reconstructed jurisprudence based on the ability to recognize and work with perceptible forms of difference **Crowdsourcing the Law** Francine Banner,2019-08-27 While the general public may feel uncomfortable discussing sexual assault and violence with neighbors or coworkers the popularity of Twitter Snapchat and a host of other social media platforms suggests that we are not shy about expressing our opinions online Debates that just a few years ago would have taken place in real life have been relocated online allowing eager commenters to share their thoughts on guilt or innocence with legions of virtual strangers Crowdsourcing the Law explores how everyday participants interpret and apply law in the influential online court of public opinion Engaging a multidisciplinary case study approach the book analyzes social media comments about public figures such as Bill Cosby Brock Turner and Harvey Weinstein to address ambitious questions like How are rape myths being challenged reinforced and reinvented on social media What is the promise and peril of the MeToo movement for transforming the law And can due process be afforded in the face of an increasingly powerful virtual jury **The Supreme Court in American Politics** Howard Gillman,Cornell W. Clayton,1999 For decades political scientists studying the Court have adopted behavioral approaches and focused on the relatively narrow question of how the justices policy preferences influence their voting behavior This emphasis has illuminated important aspects of Supreme Court politics but it has also left unaddressed many other important questions about this unique and fascinating institution Drawing on the new institutionalism in the social sciences the distinguished contributors to this volume attempt to fill this gap by exploring a variety of topics including the Court s institutional development and its relationship to broader political contexts such as party regimes electoral systems social movements social change legal precedents political identities and historically evolving economic structures The book s initial chapters examine the nature of the Court s distinctive norms as well as the development of its institutional powers and practice A second section relates the development of Supreme Court politics to the historical development of other political institutions and social movements Concluding chapters explore how its decision

making in particular areas of law or periods of time is influenced by and influences its socio political milieu These contributions offer provocative insights regarding the Court s role in maintaining or disrupting political and economic structures as well as social structures and identities tied to ideology class race gender and sexual orientation The Supreme Court in American Politics shows how we can develop an enriched understanding of this institution and open up exciting new areas of research by placing it in the broader context of politics in the United States

Social Organization of Law Austin Sarat,2004 Austin Sarat s The Social Organization of Law Introductory Readings begins with a simple premise law seeks to work in the world to order change and give meaning to society and describes legal processes as socially organized This book connects legal studies to the study of society in two different senses First the readings highlight

law s responsiveness to various dimensions of social stratification They also draw attention to the questions of when why and how legal decisions and actions respond to the social characteristics e g race class and gender of those making the decisions as well as those who are subject to them These questions inevitably raise issues of justice and fairness highlighting the moral

dimensions of legal life Second Sarat treats law itself as a social organization emphasizing the complex relations between its various component parts e g judges and jurors police and prosecutors appellate courts and trial courts The book examines the traditional subject of professional legal study namely appellate court opinions and describes some of the most pressing

controversies of legal interpretation while questioning how those opinions take on meaning in social life Sarat also questions whether those at the top of law s bureaucratic structure effectively control the behavior of others in the legal system s chain of command This anthology provides accessible up to date materials such as readings on terrorism and the challenges it

poses to law racial profiling and gay rights juxtaposed to the classics of the field Introductions to each reading along with the notes and questions written by the author unpack the issues and engage students enabling them to link the material from one

chapter to another Additional suggested readings provide stimulus for further inquiry The Social Organization of Law offers students a broad perspective that treats law as a set of institutions and practices combining moral argument distinctive interpretive traditions and the social organization of violence **The Intersection of Legal Status and Stratification**
