The Clash Of Globalisations Neoliberalism The Third Way And Antiglobalisation:

The Clash of Globalisations Ray Kiely, 2005-03-01 This book provides a powerful critique of the case made for globalisation with particular emphasis placed on neo liberalism the third way and the hegemonic role of the US state It then examines the rise of anti globalisation politics and the debate over progressive alternatives to actually existing globalisation

Critical Reflections on the Language of Neoliberalism in Education Spyros Themelis, 2020-12-29 Recognizing the dominance of neoliberal forces in education this volume offers a range of critical essays which analyze the language used to underpin these dynamics Combining essays from over 20 internationally renowned contributors this text offers a critical examination of key terms which have become increasingly central to educational discourse Each essay considers the etymological foundation of each term the context in which they have evolved and likewise their changed meaning In doing so these essays illustrate the transformative potential of language to express or challenge political social and economic ideologies The text s musings on the language of education and its implications for the current and future role of education in society make clear its relevance to today s cultural and political landscape This exploratory monograph will be of interest to doctoral students researchers and scholars with an interest in the philosophy of education educational policy and politics as well as the sociology of education and the impacts of neoliberalism

Neoliberal Thought and Thatcherism Robert Ledger, 2017-12-01 The premiership of Margaret Thatcher has been portrayed as uniquely ideological in its pursuit of a more market based economy A body of literature has been built on how a sharp turn to the right by the Conservative Party during the 1980s inspired by the likes of Milton Friedman and Friedrich Hayek acted as one of the key stepping stones to the turbo charged capitalism and globalization of our modern world But how neoliberal was Thatcherism The link between ideas and the Thatcher government has frequently been over generalized and under specified Existing accounts tend to characterize neoliberalism as a homogeneous and often ill defined group of thinkers that exerted a broad influence over the Thatcher government In particular this study explores how Margaret Thatcher approached special interest groups a core neoliberal concern The results demonstrate a willingness to utilize the state often in contradictory ways to pursue apparently more market orientated policies This book through a combination of archival research interviews and examination of neoliberal thought itself defines the dominant strains of neoliberalism more clearly and explores their relationship with Thatcherism

Economic Transitions to Neoliberalism in Middle-Income Countries Alfredo Saad-Filho, Galip L. Yalman, 2009-12-04 This book argues that neoliberalism is the contemporary form of capitalism focusing on a materialist understanding of its workings as a modality of social and economic reproduction and its everyday practices of dispossession and exploitation

We Make Our Own History Laurence Cox, Alf Gunvald Nilsen, 2014-08-20 We live in the twilight of neoliberalism the ruling classes can no longer rule as before and ordinary people are no longer willing to be ruled in the old way Pursued by global elites since the 1970s neoliberalism is defined by dispossession and ever increasing inequality The

refusal to continue to be ruled like this ya basta appears in an arc of resistance stretching from rural India to the cities of the global North From this network of movements new visions are emerging of a future beyond neoliberalism We Make Our Own History responds to these visions by reclaiming Marxism as a theory born from activist experience and practice This book marks a break both with established social movement theory and with those forms of Marxism which treat the practice of social movement organising as an unproblematic process It shows how movements can develop from local conflicts to global struggles how neoliberalism operates as a social movement from above and how popular struggles can create new worlds from below *The Financialisation of Social Reproduction in the Age of Neoliberalism: From Theory to Case Studies* Ben Fine,2024-12-02

Drawing upon comprehensive research across five countries including case studies of housing water and health comprehensive theoretical and empirical accounts are offered of the impact of financialisation on economic and social reproduction alongside the corresponding material cultures of neoliberalism Economic is understood as embedded within social reproduction with neoliberalism as the current stage of capitalism fundamentally underpinned by but not reducible to the financialisation of everyday life Considerable emphasis is placed upon the variegated outcomes attached to the neoliberalisation of social reproduction as highlighted by the comparative study of economic and social provisioning across different countries and sectors **Mondialisering en fiscale rechtvaardigheid** Dries Lesage,2006 *Good Governance in the Era of Global Neoliberalism* Jolle Demmers,Alex E. Fernández Jilberto,Barbara Hogenboom,2004-08-02

The contributions cover a wide range of territories Argentina Russia the Ukraine Indonesia and Taiwan The book will be the first to call into question the idea of good governance and exactly what that implies The editors have a good track record and have been widely published in the area Book should be of great appeal to all international and development economists
