## **The Colossus Of Roads Myth And Symbol Along The American Highway:**

The Colossus of Roads Karal Ann Marling, 1984      **Are We There Yet?** Susan Sessions Rugh, 2008 An entertaining cultural history of the American family vacation during the height of its popularity from 1945 to 1973 Reveals the ways in which the ritual of the family road trip for most middle class Americans became a way of defining what it meant to be and become American      **Many Wests** David M. Wrobel, Michael C. Steiner, 1997 What does it mean to live in the West today Do people tend to identify with states with regions or with the larger West This book examines the development of regional identity in the American West demonstrating that it is a regionally diverse entity made up of many different wests Great Plains Southwest Rocky Mountains and more in which American regionalism finds its fullest expression These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them Wrobel and Steiner first offer a compelling overview of the West's regional nature then thirteen other rising or renowned scholars from history American Studies geography and literature tell how regional consciousness formed among inhabitants of particular regions All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities Some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived Each of the contributors believes that where a people live helps determine what they are and they write not only about the many wests within the larger West but also about the constant state of flux in which regionalism exists Many books speak of the West as a place but few others deal with the West's different places Many Wests presents a vision of the West that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields It is a book for everyone who lives in studies or loves the West for it confirms that it is home to very different peoples economies histories and regions      **Springsteen, Troubadour of the Highway**, 2002      Choice, 1989

**Architourism** Joan Ockman, Salomon Frausto, 2005 This sumptuously illustrated book looks at why the world's most interesting buildings are becoming the hottest destinations for today's travelers In the last few decades architecture has become a major focus for travelers rather than merely a part of a larger itinerary Illustrated with nearly one hundred color photographs this series of provocative essays and contributions by leading scholars critics architects and artists explores the role of architecture in the contemporary tourist imagination From Mont Saint Michel and the Taj Mahal to Bilbao's Guggenheim Museum and the Blur Building in Switzerland's Lake Neuchâtel the authors focus on how certain iconic buildings have found their way into the cultural consciousness At the same time they offer insights as to why other buildings such as Minnesota's Mall of America and the faux architecture of Las Vegas have become integral to their regions tourist

economy and postulate how this success will influence architecture of the future ILLUSTRATIONS 116 colour 25 b w
