The Coming Of Age Of Jane:

Pictures of Girlhood Sarah Hentges, 2015-01-09 Although the coming of age story has been a popular film plot for decades producers have only recently realized the commercial potential of targeting films to adolescent girls. Movies like Clueless, Legally Blonde and Mean Girls have been successfully marketed to teenage girls as have several well known independent films. Important as both cultural indicators and catalysts, these films simultaneously demonstrate pop culture's influence on girls' films and the ability of girls' films to affect pop culture and perceptions of girlhood. This critical survey of film and the modern girl concentrates largely on films of the last two decades addressing key themes for girls within coming-of-age films: the changing but not always improving young feminine paradigm and the ways these films can be powerful determinants of culture. The first chapter explores the ways in which girls' films construct, reinforce, challenge and dismantle mainstream conceptualizations of sexuality, race and power. The second chapter discusses mainstream limitations of coming-of-age narratives including recycled plots and stars' treatments of parental and male authority and adult conceptualizations of adolescence. The third chapter describes girls' experiences within these narratives through such conventions as attitude, teen fashion, music and dance, unsanctioned rites of passage and race. The fourth chapter covers the negotiation of sex and sexuality, virginity and sexual empowerment. Instructors considering this book for use in a course may request an examination copy here.

A Companion to the Brontës Diane Long Hoeveler, Deborah Denenholz Morse, 2016-05-31 A Companion to the Brontës brings the latest literary research and theory to bear on the life, work and legacy of the Brontë family. Includes sections on literary and critical contexts, individual texts, historical and cultural contexts, reception studies and the family's continuing influence. Features in-depth articles written by well-known and emerging scholars from around the world. Addresses topics such as the Gothic tradition, film and dramatic adaptation, psychoanalytic approaches, the influence of religion and political and legal questions of the day, from divorce and female disinheritance to worker reform. Incorporates recent work in Marxist, feminist, postcolonial and race and gender studies.

The Enigma of Gender Hans-Georg Moeller, 2026-02-03 Current debates about gender identity are fraught with contradictions. Even as we increasingly recognize gender as an assigned category or social convention, we still see it as inherent to who we are, fundamental to our sense of self. But the quest to find one's true self is unfulfillable. How can we find alternatives to the focus on getting our identity right? This book offers a cultural critique of gender narratives spanning traditional conformity to gender roles, the modern quest for individual authenticity beyond gender and the recent social media-fueled concern with curating gendered profiles. Hans-Georg Moeller puts Daoist philosophy into conversation with present-day thinkers, showing why it helps us rethink common notions about identity. Discussing a wide range of cases from Chinese foot binding to the politics around transgender issues, today he argues that we can defuse our anxieties by recognizing that gender, like all identities, is social, not individual, and changes at different times and in different places. Accessibly written and empathetic, *The Enigma of Gender* calls on us to be

at ease with whoever we happen to be *The Australian Law Times* ,1895 The Victorian Law Reports Victoria. Supreme Court,1895 *Youth Comes of Age* Wellington G. Geiger,2011-12-31 This latest volume in Roger Geiger's distinguished series on the history of higher education begins with a rare glimpse into the minds of mid nineteenth century collegians Timothy J Williams mines the diaries of students at the University of North Carolina to unearth a not unexpected preoccupation with sex but also a complex psychological context for those feelings Marc A VanOverbeke continues the topic in an essay shedding new light on a fundamental change ushering in the university era the transition from high schools to college The secularization of the curriculum is a fundamental feature of the emergence of the modern university Katherine V Sedgwick explores a distinctive manifestation by questioning why the curriculum of Bryn Mawr College did not reflect the religious intentions of its Quaker founder and trustees Secularization is examined more broadly by W Bruce Leslie who shows how denominational faith ceded its ascendancy to Pan Protestantism Where does the record of contemporary events end and the study of history begin A new collection of documents from World War II to the present invites Roger Geiger's reflection on this question as well as consideration of the most significant trends of the postwar era Educators chafing under current attacks on higher education may take solace or dismay from the essay Shaping a Century of Criticism in which Katherine Reynolds Chaddock and James M Wallace explore H L Mencken's writings which address enduring issues and debates on the meaning and means of American higher education
