The Christmas Foundation Beginning Of A New Cosmic Age:

The Christmas Foundation Rudolf Grosse,1984 This is an introduction to the spiritual and historical conditions prevailing during the establishment of the General Anthroposophical Society at the Christmas Conference of 1923 just one year after its first center the Goetheanum was burned to its foundation The author s purpose was to see Rudolf Steiner within the overall process of world history and so to recognize his spiritual mission while experiencing the nature of that important event

Time of Decision with Rudolf Steiner Friedrich Hiebel,1989-12 This fascinating recollection of the early days of the Anthroposophical Society offers a unique perspective on Rudolf Steiner s work and his relationship to his students Of particular interest to our readers will be the chapters on the Christmas Conference of 1923 for the foundation of the Anthroposophical Society Hiebel attended the meeting and his lively descriptions and warm style let those solemn events rise up again in our souls He recreates the solemn sacred mood of the laying of the Foundation Stone and provides insights into the structure and meaning of the Foundation Stone verses

Star Wisdom and Rudolf Steiner David Tresemer,2007-02

A Life for the Spirit Henry Barnes,1997 Whether or not Steiner s insights are valid is for each of us to determine His work is not easy and he challenges our usual thinking every step of the way The insights are radical in the original meaning of that word they go to the roots We are forced more and more to realize that only through

such thinking can actions arise that are truly healing and constructive Henry Barnes from the introduction Few people today recognize Rudolf Steiner's name yet those who are aware of him know that his presence pervades every forward looking aspect of contemporary life Nearly all fields of life have been fructified by his insights not abstractly or theoretically but in a concrete way that changes lives No wonder then that Steiner has been called the best kept secret of the twentieth century Born in 1861 in Kraljvec Austria Steiner showed evidence early on of the most varied gifts a precise and probing scientific mind combined with a natural clairvoyant ability to see into the spiritual world a determined need to think things through for himself and a profound reverence for the divine He first made his mark as a philosopher and the editor of Goethe's scientific writings He also recognized the revolutionary spirit in Nietzsche But Steiner's destiny led him in a different direction Profound cognitive experiences determined that his task would lie in service to the spirit While recognizing the integrity of modern science's phenomenological empiricism he also knew that the time had come to extend the field of science to include investigation of the supersensible Working at first within the Theosophical Society but always speaking and writing out of his own experience Steiner developed the foundations for a thoroughly modern spiritual scientific discipline that would transform spiritual and cultural life Until his death in 1925 in countless lectures and books Steiner created the body of knowledge and practice known as anthroposophy which not only challenged and extended the underlying methods of modern knowledge but stimulated many practical cultural initiatives such as Waldorf education biodynamic agriculture the art of eurythmy the movement for a threefold social order and anthroposophical medicine Henry Barnes the author of *Into the Heart's Land A Century of Rudolf Steiner's Work in North America* recounts the dynamic life of this remarkable man He does so by placing Steiner in the crosscurrents of history and showing him not as a spectator or ivory tower philosopher but as a leading actor in the drama one whose entire being was given in service to humanity and to the spirit Contents Foreword by Robert McDermott Introduction In Search of a New Thinking The Twentieth Century Battleground for Human Individuality Child of Middle Europe Biographical Foundations The Weimar Years Nietzsche Steiner and the Redemption of Thinking The Years of Inner Testing Berlin The Work Unfolds The Building Rises Insight Becomes Life The Three fold Movement for Social Reform The First Waldorf School and the Independence of Education The Healing Arts Religious Renewal Out of Fire Renewal from Within The Christmas Foundation Months of Grace Afterword The Battle Continues What Can I Do

Architecture Rudolf Steiner, 2003 Rudolf Steiner the often undervalued multifaceted genius of modern times contributed much to the regeneration of culture In addition to his philosophical teachings he provided ideas for the development of many practical activities including education both general and special agriculture medicine economics architecture science religion and the arts Today there are thousands of schools clinics farms and many other organizations based on his ideas Steiner's original contribution to human knowledge was based on his ability to conduct spiritual research the investigation of metaphysical dimensions of existence With his scientific and philosophical training he brought a new systematic discipline to

the field allowing for conscious methods and comprehensive results A natural seer from childhood he cultivated his spiritual vision to a high degree enabling him to speak with authority on previously veiled mysteries of life Topics include the origins and nature of architecture the formative influence of architectural forms the history of architecture in the light of human spiritual evolution new architecture as a means of uniting with spiritual forces art and architecture as manifestations of spiritual realities metamorphosis in architecture aspects of a new form of architecture the first and second Goetheanum buildings the architecture of a community in Dornach the temple is the human being the restoration of the lost temple

Milestones T. H. Meyer, 2015-10-26 Why was the act of arson that destroyed the first Goetheanum so devastatingly successful in its malicious intent What was the nature of the poisoning that Rudolf Steiner suffered in 1923 What was the significance of Steiner's encounter with an unknown Master in 1879 and his later meeting with Friedrich Nietzsche on his sickbed Rather than presenting an accumulation of data Meyer takes a symptomatological approach to the evolution of Rudolf Steiner's thinking pinpointing specific moments in his biography whilst making numerous links to contemporary issues Seemingly unimportant details are significant such as Steiner's boyhood habit of smashing dishes or the droplet of water that adorned Steiner's forehead at his funeral The often overlooked language of such images is evaluated within the scope and grandeur of Rudolf Steiner's life's work An incisive theme running through Milestones is the dual nature of time involution and evolution and how it affects the Anthroposophical Society and movement Following Steiner's death a one sided involution process has been evident in the overemphasis on the Christmas Foundation Meeting as well as Steiner's supposedly indissoluble connection with the Society This is coupled with distorted evolution processes as seen in the urge to enter the public domain by jettisoning anthroposophy altogether Such disharmonies can only be healed says Meyer by seeing the reality This book serves as an essential guide to understanding the task of anthroposophy in the modern world

Seldom in modern esoteric Christian scholarship do we find an author with the breadth of understanding to encompass the Eastern Central and Western Grail traditions John Barnwell in The Arcana of the Grail Angel synthesizes and illuminates the Grail tradition in the light of modern Spiritual Science and the works of its founder Rudolf Steiner Steiner's Western esoteric stream of Christianity creates a backdrop of historical philosophical and religious archetypes that encompass the most comprehensive esoteric Christian Cosmology available Add to this an extensive panoramic view of the historical allegorical and spiritual nature of the Grail and together we find this refreshing work and immediately recognize a must read
